**SUBJECT: CCR VIOLATIONS**

Dear Mr. Marcum:

The Ohio EPA-Northwest District Office (NWDO) received the 2007 Consumer Confidence Report (CCR) for the Crawford County Sewer District #2 public water system (PWS) on June 25, 2008. The CCR was reviewed for the required content. Based on our review, the Crawford County Sewer District #2 PWS is in violation of the Ohio Administrative Code (OAC) rules 3745-96-01 through 04 for failure to comply with the CCR requirements, the following violations were noted:

1. Lead health information was to have been included since one out of ten sample sites was found to have lead levels in excess of the action level of 15 ppb according to OAC rule 3745-96-03 (D). The following educational paragraph must be included when the lead level is exceeded in more than 5%, but fewer than 10% of sites sampled.

*"Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is available from the Safe Drinking Water Hotline (1-900-426-4791)."*

2. The Table of Detected Contaminants was included in the report. However, only Bucyrus WTP entry point tap monitoring detections need to be provided by the wholesaler for this table. It would then need to be expanded as needed to include any contaminants detected by the satellite system (Crawford County Sewer District #2) including Total Coliform positive sample results, Lead and Copper information, Total Chlorine levels, Total Trihalomethanes (TTHMs), and Haloacetic Acids (HAA5). [OAC rule 3745-96-02 (D)]

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must also be submitted to NWDO by no later than July 1, 2009 at the above address. Violations in future reports may result in further enforcement action.

Mr. Timothy D. Marcum
