NAPOLEON, CITY OF

9/16/2008

Dear Mr. Noblit:

Ohio EPA received the 2007 Consumer Confidence Report (CCR) for the City of Napoleon on July 1, 2008. The CCR was reviewed for the required content. Based on our review, the City of Napoleon water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following violation was noted.

Total trihalomethanes violations were reported during the first and second quarter 2007. The CCR must contain a clear and readily understandable explanation of the violations including: the length of the violations; the potential adverse health effects; and actions taken by the public water system to address the violation. [Rule 3745-96-02(D)(6)].

Be sure to correct the violation as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website:
www.epa.state.oh.us/ddagw/ccr.html.

If you have any questions regarding this letter, or any other matter involving your water system, contact me at (419) 373-3048, or by email [Ralph.Baker@epa.state.oh.us].

Sincerely,

Ralph J. Baker
Engineer
Division of Drinking and Ground Waters
