Rockford, Ohio 45882

Notice of Violation – Quarterly Report

Dear Mr. Long:

The Total Chlorine Residual Quarterly Operating Report (EPA Form 5114) for the monitoring period (January – March 2010) was received late by Ohio EPA-Northwest District Office (NWDO) on **July 21, 2010**.

Ohio Administrative Code rule 3745-83-01 (I) (2) requires that operation reports be submitted to NWDO no later than the tenth of the month following the month/quarter for which the report was prepared. This rule also requires that the report be signed by the designated operator in responsible charge in accordance with rule 3745-7-02 of the Administrative Code.

It has been noted that the report was signed by yourself, the designated operator in responsible charge.

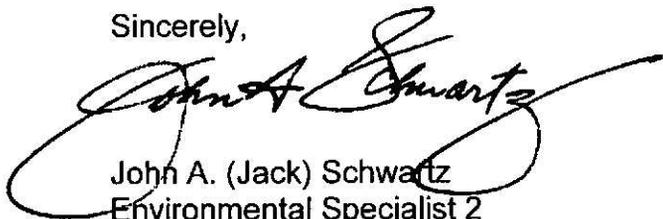

More than one operator of record may be designated to oversee the technical operation of the public water system by completion and return of the enclosed Operator of Record Notification Form to the Operator Certification Unit.

Failure to take action to address this reporting violation may result in further enforcement action being taken.

Mr. Jeffrey Long
