Re: 2005 Consumer Confidence Report

Dear Mr. Brophy:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2005 Consumer Confidence Report (CCR) for Allen Park Mobile Home Court on August 15, 2006. The CCR was reviewed for the required content. Based on our review, the Allen Park Mobile Home Court water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. Required health information that was required as a result of the MCL Exceedance for Arsenic was not included in the report as required by OAC Rule 3745-96-03(B-E).
2. Monitoring or reporting violation for not taking lead and copper samples in 2005 was not included in the report. This information must be included in the 2006 CCR due to the facility not returning to compliance for the violation until 9/13/2006.
3. The Table of Detected Contaminants contained incorrect information. Total coliform and lead were non-detect and should not be reported in the table. The 2004 detections for Fluoride and Nitrate must be reported in the Table. The detected levels for Copper, TTHM, and HAA5 were not reported accurately.

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2007 must be sent to your customers by no later than July 1, 2008. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website: www.epa.state.oh.us/ddagw.

If you have any questions, please contact me at 419-373-3101.

Sincerely,

Ben Smith
