Re: 2007 Consumer Confidence Report

Dear Mr. Street:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2007 Consumer Confidence Report (CCR) for Green Valley Mobile Home Park (MHP) on June 13, 2008. The CCR was reviewed for the required content. Based on our review, the Green Valley MHP water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. The Table of Detected contaminants is incomplete or inaccurate. Chloroform was non-detect in 2007 and therefore should not be included in the table. Arsenic, Chromium, Fluoride, Nickel, and Nitrate were detected in 2007 and therefore should be included in the table. The level found for bromodichloromethane and dibromodichloromethane was reported incorrectly. The range of detections was not reported for any contaminant (NA or appropriate range not reported). A comment must be noted for the copper detection that specifies 0 of the 5 samples exceeded the action level for copper.
2. MCL and MCLG must be added to the definitions portion of the report in accordance with OAC Rule 3745-96-02(C).
3. As documented on the certification form it appears a good faith effort to reach all non-bill paying consumers was not made.

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website: [www.epa.state.oh.us/ddagw](http://www.epa.state.oh.us/ddagw).

If you have any questions, please contact me at 419-373-3101.

Sincerely,

Ben Smith
