SUBJECT: 2008 Consumer Confidence Report (CCR) Violations

Dear Ms. Angel:

The Ohio EPA-Northwest District Office (NWDO) received the 2008 CCR for the Greenwood Mobile Home Park (MHP) public water system (PWS) on July 20, 2009. The CCR was reviewed for the required content. Based on our review, the Greenwood MHP PWS is in violation of the Ohio Administrative Code (OAC) rules 3745-96-01 through 04 for failure to comply with CCR requirements, the following violations were noted:

- 1. Some or all of the source water information was missing.** That is a description of the primary type of source water (ground water), the commonly-used name (if such a name exists), and location of your water source were to have been included.
- 2. Source water susceptibility language was not included.** Ohio EPA conducted a source water assessment of your PWS and completed a Drinking Water Source Assessment Report (SWAP) which was sent to you with our correspondence dated December 3, 2002. Proposed CCR language, which was provided in Attachment A of that letter, or more site specific detail was to have been included in the CCR.

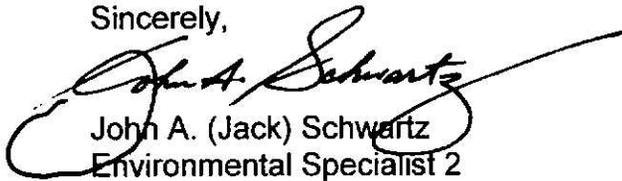

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2009 must be sent to your customers by no later than July 1, 2010. A copy of the CCR along with a Certification Form must be submitted to NWDO at the above address. Violations in future reports may result in further enforcement action.

Ms. Dawn Angel, Owner/Manager
