OAKWOOD VILLAGE WATER

9/25/2008

Re: 2007 Consumer Confidence Report

Dear Mr. Henke:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2007 Consumer Confidence Report (CCR) for the Village of Oakwood on June 30, 2008. The CCR was reviewed for the required content. Based on our review, the Village of Oakwood water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. The Table of Detected Contaminants contained incorrect information.

The following detected contaminants were reported with the incorrect level found. The 2007 level for each contaminant should have been: Bromodichloromethane (3.9 ug/L), Bromoform (3.1 ug/L), Chloroform (1.9 ug/L), Dibromochloromethane (5.6 ug/L), Total Trihalomethanes (26 ug/L), and Total Chlorine (1.5 mg/L).

Reported contaminant Nitrate was non-detect for the 2007 monitoring and should not be included in the table.

The sampling results from 2007 for Arsenic (3.2 ug/L), Barium (90 ug/L), Chromium (10 ug/L), and Selenium (8.9 ug/L) should have been included in the Table. The table must notify the consumers of the water of all contaminants detected in the water. Informing them to "Call Office" does not meet the requirement or the intent of the Consumer Confidence Report.

The lead and copper detections must be accompanied by a statement that 0 of 10 samples exceeded the action level for lead and copper.

A "Range of Detection" column must be reported in the table (NA or a range of the lowest to highest samples collected in the reporting year). The range of detections for Fluoride is incorrect (only one sample taken in 2007) and the range for total chlorine was not reported (lowest to highest monthly data or 0.9 to 1.7 mg/L).

Mr. Erhard "Bud" Henke

Page Two

2. As documented on the certification form it appears a good faith effort to reach all non-bill paying consumers was not made.

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website: www.epa.state.oh.us/ddagw .

If you have any questions, please contact me at 419-373-3101.

Sincerely,

Ben Smith
