Dear Ms. Crain:

Disinfection monitoring for total chlorine is required by OAC Rule 3745-81-70 at the time routine total coliform samples are collected. The results of these samples are to be reported on the Total Chlorine Residual Quarterly Operating Report (EPA 5114) by the 10th of the month following the end of the calendar quarter being reported. The Total Chlorine Residual Quarterly Operating Reports for the Oct.-Dec., 2008 through Oct.-Dec. 2009 calendar quarters have not been received for your water system.

Please note: The violations for the Oct.-Dec. 2008, Jan.-Mar. 2009, and Apr.-June, 2009 calendar quarters were previously pointed out in the sanitary survey letter dated June 24, 2009.

If you have any questions regarding this letter, please contact me at (419) 373-3105.

Yours truly,

Curt Eldridge
