Mr. Greg Martin
Village of Attica
20 South Main Street
P. O. Box 564
Attica, Ohio 44807-9012

Subject: TOC Monitoring Violation - March 2011

Dear Mr. Martin:

In violation of Ohio Administrative Code (OAC) rule 3745-81-77(B)(1), the public water system failed to monitor for total organic carbon (TOC) and raw water total alkalinity during March 2011.

Failure to monitor for TOC is a monitoring violation that requires a tier 3 public notification in accordance with OAC rule 3745-81-32(D)(1)(a). The public water system must provide notice as soon as practical, but no later than one year after the public water system learns of the violation. The following forms of delivery must be used in order to reach all persons served.

Mail or other direct delivery to each customer receiving a bill and to other service connections to which water is delivered by the public water system; and, any other method reasonably calculated to reach other persons regularly served by the public water system. The consumer confidence report (CCR) may be used as a vehicle for the notice if the CCR is provided to persons served within one year after the public water system learns of the violation (April 1, 2012).

If the public water system fails to correct its violations, then the director may enforce the safe drinking water regulations to attain compliance. An enforcement action may include civil penalties of not more than \$25,000 per day per violation in accordance with RC §§6109.33, or administrative penalties in accordance with OAC rule 3745-81-04.

Mr. Greg Martin
