**Re: 2007 Consumer Confidence Report**

Dear Mr. Clark:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2007 Consumer Confidence Report (CCR) for the Village of Bettsville on June 23, 2008. The CCR was reviewed for the required content. Based on our review, the Village of Bettsville water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. The Table of Detected Contaminants contained incorrect information.

The 2007 sampling results for Selenium and Total Coliform Bacteria were non-detect and should not be included in the table. The total chlorine level found and range were reported incorrectly (level=1.3 and range=0.5 to 1.5).

2. Monitoring violation information for the April 2007 total coliform sample, that was not collected, was not included in the consumer confidence report.

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website: [www.epa.state.oh.us/ddagw](http://www.epa.state.oh.us/ddagw).

If you have any questions, please contact me at 419-373-3101.

Sincerely,

Ben Smith  
Environmental Specialist 2  
Division of Drinking and Ground Waters
