Subject: 2007 CCR

Ohio EPA received the 2007 Consumer Confidence Report (CCR) for the Ohio City Water Treatment Plant Public Water System on July 11, 2008. The CCR was reviewed for the required content. Based on our review, the Ohio City Water Treatment Plant Public Water System is in violation of the Ohio Administrative Code (OAC) Rule 3745-96-02 for failure to comply with the following CCR requirements:

1. The Table of Detected Contaminants failed to report detection of Total Chlorine in the appropriate format. Refer to the CCR template and template guide accessible on our website at <http://www.epa.state.oh.us/ddagw/ccr.html>.
2. The Table of Detected Contaminants is to include the most recent data. Delete reference to Arsenic Level Detected of 5.575.
3. Failed to provide to the Director by July 1, 2008, a copy of the report and a distribution certification.

Be sure to correct the violations as appropriate in your next CCR. The next Consumer Confidence Report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Northwest District Office at the above address.

If you have any questions, please contact me at (419)373-3042.

Sincerely,

Larry W. Moritz
Division of Drinking and Ground Waters
