Re: 2007 Consumer Confidence Report

Dear Mr. Heisey:

The Ohio Environmental Protection Agency (Ohio EPA) received the 2007 Consumer Confidence Report (CCR) for Williams County Hillside Country Living on July 9, 2008. The CCR was reviewed for the required content. Based on our review, the Williams County Hillside Country Living water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following minor violations were noted:

1. As documented on the certification form good faith efforts to reach all non-bill paying consumers were not made. Ohio EPA recommends, at a minimum, that the CCR be posted in public places throughout the facility.
2. The consumer confidence report was not delivered to each customer and a copy of the report and the certification was not received by Ohio EPA by July 1, 2008.
3. The Table of Detected Contaminants should have included the 2007 detections for Arsenic (4.7 ppb) and Lead (3.65). In addition, lead and copper detections must be accompanied in the table with a statement in regard to the number of samples out of the five samples taken that exceed the action level for the specific contaminant.

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Ohio EPA, Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR template and template guide are accessible on our website at www.epa.state.oh.us/ddagw.
