Carey, Ohio 43316

SUBJECT: CCR VIOLATION

Dear Mr. Keller:

Ohio EPA received the 2006 Consumer Confidence Report (CCR) for the Carey Village public water system (PWS) on July 2, 2007. The CCR was reviewed for the required content. Based on our review, the Carey Village PWS is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements, the following violations were noted:

1. The Residual Disinfectant category, concerning Total Chlorine levels measured at the same time that routine and repeat bacterial samples are obtained, was omitted from the Table of Detected Contaminants. These levels are reported on the Total Chlorine Residual Quarterly Operating Report form 5114. Blank monthly/quarterly reporting forms are available via the internet on the Ohio EPA website at <http://www.epa.state.oh.us/ddagw/drinkforms.htm>.

Note that the Table is to include the most recent data for detected contaminants but does not need to include any data older than five years.

2. Two of the required definitions for terms that were to have been used in the report were not included, specifically, the maximum residual disinfectant level (MRDL) and its associated goal (MRDLG).

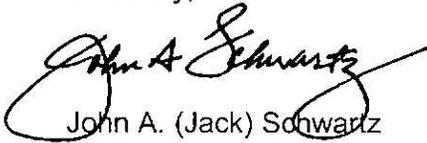

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2007 must be sent to your customers by no later than July 1, 2008. A copy of the CCR along with a Certification Form must be submitted to the Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR Template and Template Instruction Guide are accessible via the internet on the Ohio EPA website at www.epa.state.oh.us/ddagw/ccr.html.
