SUBJECT: CCR VIOLATION

Dear Mr. Clark:

Ohio EPA received the 2006 Consumer Confidence Report (CCR) for the Sycamore Village public water system (PWS) on June 27, 2007. The CCR was reviewed for the required content. Based on our review, the Sycamore Village PWS is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements, the following violations were noted:

1. The Residual Disinfectant category, concerning Total Chlorine levels measured at the same time that routine and repeat bacterial samples are obtained, was omitted from the Table of Detected Contaminants. These levels are reported on the Quarterly Total Chlorine Residual Quarterly Operating Report form 5114. Blank monthly/quarterly reporting forms are available via the internet on the Ohio EPA website at <http://www.epa.state.oh.us/ddagw/drinkforms.htm>.
2. There were also irregularities within the table that were unacceptable. Such as 'Substance', 'Compliance Achieved' and 'Number of Samples Above Action Level' are not a column headers. Header lines for each contaminant group were omitted. The Total Trihalomethane and Haloacetic Acids (HAA5) Volatile Organic contaminants were detected and yet not included in the table.
3. Some of the required definitions for terms used in the report were not included in the report, specifically, the maximum residual disinfectant level (MRDL) and its associated goal (MRDLG).

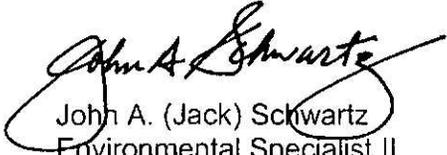

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2007 must be sent to your customers by no later than July 1, 2008. A copy of the CCR along with a Certification Form must be submitted to the Northwest District Office at the above address. Violations in future reports may result in further enforcement action.

The CCR Template and Template Instruction Guide are accessible via the internet on the Ohio EPA website at www.epa.state.oh.us/ddagw/ccr.html.
