Dear Ms. Weirick:

Disinfection monitoring for total chlorine is required by OAC Rule 3745-81-70 at the time routine total coliform samples are collected. The results of these samples are to be reported on the Total Chlorine Residual Quarterly Operating Report (EPA 5114) by the 10th of the month following the end of the calendar quarter being reported. The Total Chlorine Residual Quarterly Operating Report for the January - March calendar quarter has not been received for your water system.

If you have any questions regarding this letter, please contact me at (419) 373-3105.

Yours truly,

Curtis A. Eldridge
