DRINKING WATER NOTICE

Source Monitoring requirements were not met for Principle Business Enterprises Inc

We are required to monitor our source (raw) water for fecal indicators following a positive sample for total coliform in our distribution system. During Third Quarter of 2011, we "did not monitor or test" or "did not complete all monitoring or testing" for total coliform bacteria, and therefore cannot be sure of the quality of your drinking water during that time.

What is being done?

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters and post this public notice to inform our customers. Principle Business Enterprises Inc will take steps to ensure that adequate monitoring will be performed in the future.
