Mr. Ronald Choe : Director's Final Findings  
D.B.A. Avalon Cleaners : and Orders  
17304 Harvard Road :  
Cleveland, Ohio 44128 :

(4)

**PREAMBLE**

It is agreed by the parties hereto as follows:

**I. JURISDICTION**

These Director's Final Findings and Orders ("Orders") are issued to Ronald Choe, D.B.A. Avalon Cleaners ("Respondent"), pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 3704.03 and 3745.01.

**II. PARTIES**

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility (as hereinafter defined) shall in any way alter Respondent's obligations under these Orders.

**III. DEFINITIONS**

Unless otherwise stated, all terms used in these Orders shall have the same meanings as defined in ORC Chapter 3704 and the regulations promulgated thereunder.

**IV. FINDINGS**

The Director of the Ohio EPA has determined the following findings:

1. The City of Cleveland, Division of Air Quality ("CDAQ") acts as an agent of Ohio EPA for the Division of Air Pollution Control in Cuyahoga County.

2. Respondent owns and operates a dry cleaning facility at 17304 Harvard Road, Cleveland, Cuyahoga County, Ohio. This facility is an air contaminant source and is subject to the terms and conditions of the Permit to Install ("PTI") #13-3248. The facility is also subject to Ohio Administrative Code ("OAC") Chapters 3745-21 and 3745-31. As a dry cleaning facility, Respondent is also subject to regulations found in the Code of Federal Regulations ("CFR"), specifically 40 CFR Part 63 Subpart M, which pertain to the National Emission Standards for Hazardous Air Pollutants "(NESHAP)". Respondent uses perchloroethylene, a chemical that is regulated by the NESHAP regulations, during the dry cleaning process.

3. On October 14, 2005, CDAQ conducted a compliance inspection of Respondent's dry cleaning business.

4. During the inspection it was discovered that Respondent purchased the business on September 25, 2000 and failed to notify CDAQ of the change of ownership and also failed to file the paperwork necessary to transfer the PTI from the previous owner.

5. During the inspection, Respondent was unable to provide the CDAQ representative with purchase and disposal receipts for perchloroethylene; calculations of yearly perchloroethylene solvent consumption; visible leak inspection logs; maintenance, service and repair logs; temperature monitoring logs; and records of the amount of fabric cleaned per load for the entire length of Respondent's ownership of the facility dating back to September 25, 2000. These omissions violate the terms and conditions of PTI # 13-3248, OAC Rule 3745-21-09(AA)(1)(e), OAC Rule 3745-21-09(AA)(4) and 40 CFR Part 63 Subpart M. Specifically, PTI #13-3248 requires that the following records shall be kept on site in a log for a period of not less than 5 years, and shall be made available upon request:

- a. receipts of all perchloroethylene purchases;
- b. volume of perchloroethylene purchased each month;
- c. the calculation and result of the yearly perchloroethylene consumption;
- d. results of visible inspection, including dates when the dry cleaning system components are inspected for leaks and the name and location of dry cleaning system components where leaks are detected;
- e. the dates of repair and record of written or verbal orders for repair parts; and,
- f. the results and dates of all equipment monitoring required by this permit.

The PTI also requires that a leak detection system and repair program to inspect all dry cleaning equipment for leaks that are obvious from sight, smell, or touch shall be conducted. Any equipment found to be leaking perchloroethylene liquid or vapor is not to be operated until the leak is repaired. Compliance with this requirement shall be determined through bi-weekly visible inspections.

OAC Rule 3745-21-09 (AA)(1)(e) requires that all equipment must be maintained so as to prevent leaking of perchloroethylene liquid and prevent perceptible vapor leaks from gaskets, seals, ducts, and related equipment. OAC Rule 3745-21-09 (AA)(4) requires that each owner and operator of a perchloroethylene dry cleaning facility must maintain maintenance and inspection logs, as well as annual use of perchloroethylene in gallons and the amount of fabric cleaned in pounds for at least three years and must make these records available to the Director or an authorized representative at a reasonable time.

6. On October 21, 2005, CDAQ sent a Notice of Violation ("NOV") to Respondent that described the above violations and requested that Respondent begin to record and maintain the records required in the PTI and as stated above.

7. On December 2, 2005, CDAQ sent a second NOV to Respondent after Respondent failed to reply to the first NOV.

8. On September 28, 2006, in response to settlement negotiations, Respondent submitted financial documentation that indicated that it has an inability to pay the proposed penalty amount. The final penalty amount has been reduced to reflect Respondent's inability to pay analysis.

9. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with the following Orders and their benefits to the people of the State to be derived from such compliance.

## V. ORDERS

The Director hereby issues the following Orders:

1. Respondent shall maintain all records and documentation as required by PTI #13-3248.

2. Respondent shall submit copies of all records and documentation required by PTI #13-3248 to CDAQ on a semi-annual basis for the next year beginning January 31, 2008. The final set of records will be due to CDAQ on July 31, 2008.

## **VI. TERMINATION**

Respondent's obligations under these Orders shall terminate when Respondent certifies in writing and demonstrates to the satisfaction of Ohio EPA that Respondent has performed all obligations under these Orders and the Chief of Ohio EPA's Division of Air Pollution Control acknowledges, in writing, the termination of these Orders. If Ohio EPA does not agree that all obligations have been performed, then Ohio EPA will notify Respondent of the obligations that have not been performed, in which case Respondent shall have an opportunity to address any such deficiencies and seek termination as described above.

The certification shall contain the following attestation: "I certify that the information contained in or accompanying this certification is true, accurate and complete."

This certification shall be submitted by Respondent to Ohio EPA and shall be signed by a responsible official of Respondent. For purposes of these Orders, a responsible official is the person authorized to sign in OAC Rule 3745-35-02(B)(1) for a corporation or a duly authorized representative as that term is defined in the above-referenced rule..

All actions required to be taken pursuant to these Orders shall be undertaken in accordance with the requirements of all applicable local, state and federal laws and regulations. In order to resolve disputed claims, without admission of fact, violation or liability, and in lieu of further enforcement action by Ohio EPA for only the violations specifically cited in these Orders, Respondent consents to the issuance of these Orders and agrees to comply with these Orders.
