**Subject: Notice of Violation for Failure to Respond to a Significant Deficiency**

This letter is notification that the Dad's Drive-In PWS has not complied with requirements issued during this Agency's last survey performed on June 6, 2008, in violation of rule 3745-81-60 of the Ohio Administrative Code. The village was notified in correspondence dated June 12, 2008, to respond in writing no later than 45 days, with time frames for:

1. OAC Rule 3745-9-05 P states: "A well shall have a well cap or seal to prevent the entrance of water, dirt, animals, insects, or other foreign matter. The top of the casing at its finished height shall be cut so that the surface will fit flush with the well cap and provide a tight seal. The well cap or seal shall fit securely to the top of the well casing, be secured with screws or other appropriate connections, and vent to the atmosphere. A point well that is not a public water system well may have a watertight well cap that does not vent to the atmosphere. Electrical conduit connections on the well cap or seal shall be threaded and sealed to prevent the entrance of insects and water. A well cap for a public water system well shall conform with "Water System Council Pitless Adapter Standard PAS-97, Performance Standards for Sanitary Water Well Pitless Adapters, Pitless Units, and Watertight Well Caps" (1997), or with an alternative standard acceptable to the director.

The well cap is not properly vented and shall be replaced.

2. The well has not been demonstrated to be sited in conformance with OAC Rule 3745-9-04 which establishes, based upon the estimated average daily water demand, a sanitary isolation radius from potential sources of contamination. The required isolation radius has been established at 50' based upon an estimated average daily water demand of less than 2,500 gallons per day. Submit a plan of action for establishing an alternate source of water in the event the existing source should fail.

Ms. Donna Wyatt

3. A cartridge filter has been installed without plan approval. OAC Rule 3745-91-02 prohibits a public water system from making a substantial change, including the addition of treatment equipment, until plans have been approved by the director of environmental protection. To achieve compliance, submit and obtain approval for the installation of treatment equipment (guidance enclosed). Questions pertaining to the submission of plans should be directed to Ralph Baker, District Engineer, at 419-373-3048

The water system must respond in writing within 15 days from the date of this letter with the required information. Failure to comply may result in further enforcement action.

If you have any questions, please contact me at (419) 373-3042.

Sincerely,

Larry Moritz  
Division of Drinking and Ground Waters
