Subject: Notice of Violation (NOV) for Failure to Respond to a Significant Deficiency

This letter is notification that the Zuma Thru/Sunset Laundry/Car Wash public water system (PWS) **has not yet fully complied** with requirements issued during this Agency's last survey performed on December 2, 2008, in violation of rule 3745-81-60 of the Ohio Administrative Code (OAC). The Zuma Thru/Sunset Laundry/Car Wash PWS was notified in correspondence dated January 20, 2009, to respond in writing no later than 45 days, with time frames for:

1. Prepare your written 'Total Coliform Sample Siting Plan' in accordance with OAC Rule 3745-81-21. Specify both a backup laboratory and an alternate sample collector.

A completed copy of your 'Total Coliform Sample Siting Plan' was received as required at NWDO on December 10, 2008, and therefore, this item has been appropriately addressed. Remember to update this plan annually with any changes as necessary.

2. Provide/Install a protective barrier around Southwest Well #1...OAC rule 3745-9-05 (U)(1) states that the "casing and top of the well shall be protected against contamination or inadvertent damage."
3. Have the Double Check Valve Assembly back-flow prevention device...tested by a certified tester. [OAC rule 3745-95-06 (C)(3)]

A written response indicating a time frame for providing a protective barrier (item #2) and having the back-flow prevention device tested (item #3) has not been received.
