PWS ID: OH6243612

Mr. Donald R. Reeves
Marblehead Harbor
501 Miley Drive
Marblehead, Ohio 43440

Subject: Failure to Sample Source Water for Fecal Indicators (Total Coliform) as Required

Marblehead Harbor is in violation of Ohio Administrative Code (OAC) 3745-81-42 for failure to comply with the Ground Water Rule monitoring requirements.

Monitoring Period:	Second Quarter of 2011
Required Monitoring:	One (1) sample from the well
Sample Results Submitted:	None

ACTION REQUIRED:

- To address this violation, return to compliance, and prevent federal enforcement action, the required source water samples must be collected. Failure to collect the required source water sample(s) may result in enforcement action by the Ohio EPA.** If source water (raw) samples were collected as required, submit the results to the appropriate Ohio EPA District Office as soon as possible. The monitoring violation would be rescinded and a reporting violation given for late submittal of the results. If raw water samples were not collected, they must still be collected and Ohio EPA must receive results to return to compliance.
- Notify the people served by this water system** using one or more of the methods and the timing as required by OAC, Rule 3745-81-32 to reach all persons served.

Timing: As soon as practical, but no later than 30 days after learning of the violation:

- Posting in conspicuous location, such as bulletin boards, restrooms, drinking fountains, vending areas;
- Mail or other direct delivery to each customer;
- Newsletters or newspaper;
- E-mail to employees or students;
- Send to parents or guardians of children at schools or day care facilities.
- Posted notices must remain in place as long as the violation or situation exists, but in no case less than seven days (even if the violation is resolved). The language in italics on the enclosed public notice is mandatory and must be included, as written. Do not make changes to the public notice without consulting with the Ohio EPA beforehand.

DRINKING WATER NOTICE

Source Monitoring requirements were not met for Marblehead Harbor

We are required to monitor our source (raw) water for fecal indicators following a positive sample for total coliform in our distribution system. During Second Quarter of 2011, we "did not monitor or test" or "did not complete all monitoring or testing" for total coliform bacteria, and therefore cannot be sure of the quality of your drinking water during that time.

What Should I Do?

There is nothing you need to do at this time. You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters and post this public notice to inform our customers. Marblehead Harbor will take steps to ensure that adequate monitoring will be performed in the future.
