**NOTICE OF VIOLATION – ACTION REQUIRED**

July 11, 2008

RE: Huron County  
Wiers Farm AMLC 4A – Bldg 1 & 2  
Transient Non-Community  
PWS ID: OH3945612

Wiers Farm AMLC  
4465 State Route 103 South  
Willard, Ohio 44890

**Subject: Violation of Total Coliform Maximum Contaminant Level (MCL)  
During July 2008 (Monthly)**

Wiers Farm AMLC 4A-Bldg 1&2 is in violation of the Maximum Contaminant Level (MCL) for Total Coliform established by Ohio Administrative Code (OAC), Rule 3745-81-14. Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present.

Sample Date	Sample Tap	Total Coliform	E. coli	Fecal Coliform	Sample Number	Lab Number
07-01-08	Bldg 1 & 2	Positive	Negative	--	1959	834
07-08-08	New 1 & 2	Positive	Negative	--	2054	834
07-08-08	New 1 & 2	Positive	Negative	--	2053	834
07-08-08	New 1 & 2	Positive	Negative	--	2052	834
07-08-08	New 1 & 2	Positive	Negative	--	2051	834

**ACTION REQUIRED:**

- Investigate and eliminate the cause of bacterial contamination.** Special purpose samples may be collected to investigate the source of contamination or to verify elimination of the problem (these samples cannot be collected to comply with monitoring or MCL requirements; label samples as "special purpose").
- Notify the people served by this water system.** Within 30 days issue the enclosed public notice in accordance with OAC, Rule 3745-81-32 by the following method(s) to reach all persons served. The appropriate methods for your system are listed below under the **Transient Non-Community** column.

Community	Transient or, Non-Transient Non-Community
<ul style="list-style-type: none"><li>• Mail or other direct delivery to each customer</li><li>• If necessary to reach all persons regularly served, use other notification methods also, such as newspaper publication, public posting or Internet posting</li></ul>	<ul style="list-style-type: none"><li>• Posting in conspicuous locations, such as bulletin boards, restrooms, drinking fountains, vending areas;</li><li>• Mail or other direct delivery to each customer</li><li>• Send to parents or guardians of children at schools or day care facilities</li><li>• E-mail, newsletters or newspaper</li></ul>
<p>Posted notices must remain in place for as long as the violation exists, but in no case for less than seven days (even if the violation is resolved). The language in italics on the enclosed public notice is mandatory and must be included, as written. Do not make changes to the public notice without consulting with Ohio EPA beforehand.</p>	

3. Complete the enclosed verification form within 10 days of issuing the Public Notice and mail it to Ohio EPA - . Include a copy of each notice distributed, published or posted.
4. Monitor with at least five (5) routine samples in the month following a routine total coliform-positive result in accordance with OAC, Rule 3745-81-21(B)(7). You are required to collect five (5) routine samples during the month of August 2008.

If you have any questions, contact this office at 419-373-3102.

Sincerely,

  
Dean A. Twining  
Division of Drinking and Ground Waters

NOTICIA PUBLICA

El sistema de agua publica está exigiendo por orden de la Adminisitración del estado de Ohio en la Administración Sección 3745-81 el código (OAC) a vigilar rutanario la calidad bacteriano del agua de beber en su sistema distribución.

La muestra condujó el \_\_\_\_\_ (camp name) sistema de agua indicado que el permisible, maximo nivel contaminante por total coliforms como especificado en ley 3745-81-14 del OAC ha excedido.

"Los Estados Unidos EPA establece criterio por agua de beber y ha determinado que presencia de total coliforms está una posible preocupación salud. La presencia de estos bacterium en agua de beber generalmente es un resultado de una problema con tratamiento agua o las tuberias cual distribue el agua y indica que el agua tal vez contaminado con organismos que puede causar enfermedades. Las sintomas enfermedades tal vez incluye diarrea, calambres, fiebre, náusea, y posiblemente ictericia, y fatiga. Estos sintomas, sin embargo, no son justo asociatado con enfermedades - causa organismos en agua de beber; pero también posiblemente por un numero de razones otra que su agua de beber. US EPA ha establecido un aplicable criterio agua de beber por total coliforms reducir el riesgo de estos adversio efectos salud. Debajo éste criterio no más que 5.0 por ciento de las muestras recogido durante un mes puede contener estos bacterium, excepto que sistemas recogido menos que cuarenta muestras por mes que tiene un total coliforms - muestras por mes no está violado el criterio. El agua de beber cual satisface éste criterio no es usualmente asociado con un resultado salud de enfermedad - causa bacterium y deberia ser considerado seguro."

El \_\_\_\_\_ (owner/operator's name) está conduciendo una investigación y recogido adicional muestras y espera tener éste problema corregido pronto. Para informacion mas, ponerce con \_\_\_\_\_ (owner/operator's name) a \_\_\_\_\_ (phone #).

# DRINKING WATER NOTICE

## Tests show coliform bacteria in Wiers Farm AMLC 4A-Bldg 1&2's water

We routinely monitor for the presence of drinking water contaminants. We took five (5) samples for coliform bacteria during July 2008. All of those samples showed the presence of coliform bacteria. No more than one (1) sample per month may show the presence of coliform bacteria during a month.

### What should I do?

- *You do not need to boil your water or take other corrective actions. However, if you have specific health concerns, consult your doctor. People with severely compromised immune systems, infants, and some elderly people may be at increased risk. These people should seek advice about drinking water from their health care providers.*
- *Total coliform bacteria are generally not harmful themselves. Usually, coliforms are a sign that there could be a problem with the system's treatment or distribution system.*
- *Coliforms are bacteria which are naturally present in the environment and are used as an indicator that other, potentially harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was a warning of potential problems. Fecal coliform or E. coli, which are bacteria of greater concern, were not detected in the water.*

### What is being done?

We are still detecting coliform bacteria. We are investigating and taking the necessary steps to correct the problem as soon as possible.

For more information, please contact \_\_\_\_\_ at \_\_\_\_\_  
name of contact phone number  
or at \_\_\_\_\_  
mailing address

General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

## PUBLIC NOTICE INSTRUCTIONS AND VERIFICATION FORM FOR NON-COMMUNITY PUBLIC WATER SYSTEMS WITH TIER 2 VIOLATIONS

The owner or operator of a non-community public water system with a Tier 2 violation or situation shall notify the persons served by the public water system as soon as practical but **no later than 30 days** after the system learns of the violation. Public notice shall be repeated every 3 months as long as the violation or situation persists.

I HEREBY CERTIFY THAT THE PUBLIC WAS NOTIFIED BY THE FOLLOWING METHOD(S) INDICATED BELOW, AS DESCRIBED IN THE OHIO ADMINISTRATIVE CODE RULE 3745-81-32:

Required Method of Public Notification	Actual Method of Public Notification
<p><b>Use one or more of the following methods to reach all persons served by the public water system:</b></p> <ol style="list-style-type: none"> <li>1. Public notice issued by posting in conspicuous locations throughout the distribution system (required to remain posted for as long as the violation exists, but in no case less than 7 days)</li> <li>2. Public notice issued by mail or other direct delivery to each customer and service connection (where known).</li> </ol>	<p><b>Describe actual methods used to notify public of the violation:</b></p> <p>1A. Dates of posting _____</p> <p>1B. Locations of posting _____ _____</p> <p>2. Date of mailing/delivery _____</p>
<p><b>Schools and Day-Care Facilities</b> must notify parents or guardians of children being served by methods besides posting, such as a newsletter, e-mail notice, or direct mailing</p>	<p>A. Method(s) _____ _____</p> <p>B. Date(s) _____</p>
<p><b>If the above methods do not reach all persons served</b>, also use any other method reasonably calculated to reach other persons served by the system (e.g. publication in a local newspaper or newsletter, use of e-mail to notify employees or students, or delivery of multiple copies to central locations).</p>	<p>A. Method(s) _____ _____</p> <p>B. Date(s) _____</p>

**Please check if the public notice used was provided by Ohio EPA or another acceptable notice was used:**

\_\_\_\_\_ A public notice as enclosed with this letter was issued without changes.

\_\_\_\_\_ A different public notice was issued. **INCLUDE A COPY OF THE PUBLIC NOTICE.**
