**Re: Greve Chrysler
Van Wert County
DMWM, NWDO
Notice of Violation/Return to Compliance**

March 21, 2012

Mr. Mike Sperry
Greve Chrysler
756 West Ervin Road
Van Wert, Ohio 45891

Dear Mr. Sperry:

Thank you for accompanying me during the Ohio Environmental Protection Agency's (Ohio EPA's) March 7, 2012, compliance evaluation inspection (CEI) of Greve Chrysler's (GC's) facility located at 756 West Ervin Road, Van Wert, Ohio. I inspected GC to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). During the inspection, I also helped you identify ways to prevent pollution by reducing waste.

This letter will explain the violations I found, what you need to do to correct the violations, other general concerns I have, what you need to do to respond to my general concerns, and the pollution prevention opportunities I identified.

GC is a conditionally exempt small quantity generator (CESQG) of hazardous waste that sells and services new and used automobiles. GC has a service shop and conducts light maintenance on automobiles but no longer conducts body work at this facility. A separate building next door previously housed the automotive body shop but this shop was closed around 1995. GC generates hazardous parts washer fluid (D039), universal waste lamps, used oil, and lead-acid batteries (core exchange).

I found the following violation of Ohio's hazardous waste laws.

Violation:

- 1. OAC Rule 3745-279-22 (C)(1), Used oil storage requirements for generators:**
"Containers and aboveground tanks used to store used oil at generator facilities must be labeled or marked clearly with the words 'Used Oil'".

GC failed to mark one tank and 7 drums of various sizes with the words "Used Oil".

Mr. Mike Sperry
March 21, 2012
Page 2

On March 7, 2012, Ohio EPA received photographs showing all containers have been properly labeled.

Therefore, this violation is considered abated on March 7, 2012.

For valuable information about compliance with Ohio EPA's rules and regulations, I have enclosed the fact sheets Environmental Compliance Guide for Auto Repair Shops, dated March 2007, The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil, dated April 2006, Burning Used Oil in a Space Heater-For Businesses, dated August 2011, and Understanding the Spill Prevention, Control and Countermeasures (SPCC) Requirements, dated November 2009. You can also find additional information pertaining to regulations for auto repair shops at the website http://epa.ohio.gov/ocapp/auto_body.aspx.

General Concerns:

1. **Spent lamps:** During the inspection, we spoke about spent lamps that are generated at the facility. You stated that you did not know how spent lamps were being managed in the past. However, the facility is finishing a lighting project where all lamps are being switched to energy efficient light bulbs. At the time of the inspection, you were storing spent lamps at your facility but you did not know what options you have for spent lamp management. After discussing your options, you indicated that you were interested in managing the lamps as universal waste. As discussed during the inspection, Ohio EPA recommends that spent lamps be managed as universal waste and recycled. Please be sure to keep your universal waste lamps in a closed container and to label the container "universal waste lamps", "waste lamps", or "used lamps". For more information on universal waste, I have enclosed the fact sheets titled Universal Waste Rules for Handlers of Lamps, dated June 2005, Fluorescent Lamps: What You Should Know, dated January 2007, Universal Waste, dated August 2011, and Computer, Fluorescent Lamp and Ballast Recyclers, dated December 2011.
2. **Waste evaluations:** During the inspection, you stated that some wastes had not been generated since you took the job over four years ago. An example would be the sand blasting media waste. You stated that you have not utilized the sand blasting machine at all in over four years and were not sure when you would generate this waste again. I discussed evaluating this waste stream through sampling and analysis to determine if it is hazardous waste the next time it is generated. As a reminder, all wastes that your facility generates must be properly evaluated per OAC 3745-52-11 in order to determine if they are a hazardous waste or not.

Mr. Mike Sperry
March 21, 2012
Page 3

For more information, I have enclosed the fact sheets titled Violations Most Frequently Cited by Division of Hazardous Waste Management Inspectors, printed March 15, 2012, Identifying Your Hazardous Waste, dated April 2010, Use of Generator Knowledge In Complying with OAC rule 3745-52-11 Hazardous Waste Evaluation, dated July 18, 2005, and Commercial Environmental Laboratories, printed March 15, 2012.

Pollution Prevention:

1. **Used Oil Filters:** During the inspection, you stated that you drain your used oil filters prior to throwing them in the trash. I observed several draining filters while I was on site. You stated that you were looking into having these oil filters recycled but could not find a facility to accept them. Ohio EPA recommends that these filters be recycled as scrap metal. For more information, I have enclosed the fact sheets titled Oil Filter Recycling and Transportation Services, printed March 15, 2012, and Fact Sheets and Information Papers, Disposal of Terne-Plated and Non Terne-Plated Oil Filters, dated January 2001.

During the inspection, you specifically requested I send you information about aerosol cans and their proper management. Your concerns were mainly about storage of aerosol cans of useable product. I explained that hazardous waste CEIs do not include the inspection of the storage of products. However, I stated that I would send you information pertaining to the management of waste aerosol cans. Therefore, I have enclosed the fact sheets titled Refillable Spray Bottles, dated November 1999, Ohio Hazardous Waste Notifier, dated Winter 2002, and a letter titled Subject: Aerosol Can Management, dated October 13, 2005.

As we discussed during the inspection, you may be able to reduce the waste your company generates. If you find ways to recycle, reduce, or altogether eliminate the amount of waste that your company generates you may be able to reduce treatment and disposal costs as well as regulatory requirements. Ohio EPA has helpful information about pollution prevention at the following web address:

<http://www.epa.ohio.gov/Default.aspx?alias=www.epa.ohio.gov/ocapp>.

If you would like to be considered for a free, non-regulatory on-site pollution prevention assessment, or if you would like more information about pollution prevention assessments, please contact me at the number listed below. The Ohio Department of Development's Office of Energy Efficiency may also be able to help with energy efficiency issues. Their website is at

<http://www.development.ohio.gov/Energy/Default.htm> .

Mr. Mike Sperry

The Division of Materials and Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign up for this free service. You can find more information at the following web link: <http://ohioepa.custhelp.com/ci/documents/detail/2/subscriptionpage> . Please feel free to share this with your colleagues.

Enclosed you will find a copy of the checklists that were completed during the inspection. Should you have any questions, please feel free to call me at (419) 373-3065. You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/Default.aspx?alias=www.epa.ohio.gov/dhwm> .

Sincerely,

Kara Reynolds

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

PROCESS, WASTE, P2 SUMMARY SHEET

Facility Name: Greve Chrysler **Facility Type:** CESQG

Date of Inspection: 03-07-2012

EPA ID#:

Waste Generated			On- or Off-Site Management		P2 Activities	
Process/Activity Generating Waste (e.g. plating bath, machining, baghouse, painting, general maintenance, etc)	Waste Description (e.g. sludge, solvent, ash, used oil, spent lamps, etc.) and EPA Waste Code, if applic.	QTY Generated per Month, Type of Accumulation (container, tank, etc) and location of waste accumulation area	Type of On-Site Treatment (recycle, wwt, etc)	Name, state, and type of activity occurring at the off-site facility.	Current P2 Activities	P2 Opportunities
1 Maintenance	Spent lamps	Minimal Cardboard box Above office		Unknown		Recycle
2 Maintenance	Used oil	~50 gallons 55-gallon drums Used oil area in shop	Storage/ burnt on site		Recycle	
3 Maintenance	Used oil filters	Unknown		Local landfill		Recycle
4 Maintenance	Parts washer fluid D039	5 gallons Not stored, changed directly from parts washer		Safety-Kleen Systems, Inc., Illinois, Recycling	Reccyling	

5	Maintenance	Antifreeze	~1 Drums per year 55-gallon drums Antifreeze storage area	On-site recycling through Run Rite, Indiana		Recycle	
7	Body Work	Sandblasting Sand	Not yet been generated in the past four years due to lack of use, currently looking to sell the machine				
8	Maintenance	Lead acid batteries	Varies		Core exchange through various facilities such as Mopar	Recycle	
9	Maintenance	Shop rags	Varies		Laundered through Cyntas	Laundered	

REMARKS/GENERAL INFORMATION

General Process Information: See Attached Letter.

Regulatory/Enforcement History (if applicable): N/A

Additional P2 remarks and information: See Attached Letter.

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥1 Kg. of acutely hazardous waste in a calendar month.
 NOTE: To convert from gallons to pounds: *Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.*

Safety Equipment Used:

WASTE EVALUATION

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

GENERATOR CLASSIFICATION

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	--

TREATMENT OF HAZARDOUS WASTE

4.	Does the generator treat hazardous waste in a:	
	a. Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	b. Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	c. Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	d. Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5.	Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
	a. Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	---	--

a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	---	--

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	---	--

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	---	--

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	--

8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

a.	Stopped the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	----------------------	--

b.	Contained the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	------------------------	--

c.	Cleaned up and properly managed the used oil and other materials?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	--

d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

ON-SITE BURNING IN SPACE HEATER		
--	--	--

10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:		
	a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
	b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
	c.	Are the combustion gases from heater vented to the ambient air?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).

GENERATOR TRANSPORTATION

11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]		Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]		
	a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).

COLLECTION CENTERS AND AGGREGATION POINTS

13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]		Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]		Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]		Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.
