RE: NEW CORK ELEMENTARY SCHOOL
OHIO EPA PERMIT 3PT00136
HARPERSFIELD TWP, ASHTABULA COUNTY
MISSING EDMR INFORMATION

Ms. Mary Zappitelli, Superintendent
Geneva Area City School District
135 South Eagle Street
Geneva, OH 44041

Dear Ms. Zappitelli:

During a review of Ohio EPA's electronic discharge monitoring report (eDMR) information for the above referenced facility located at 341 State Route 534, Harpersfield Township, Ashtabula County, Ohio EPA notes that electronic discharge monitoring reports (eDMRs) have not been submitted for the months of February through April 2010.

Ohio EPA understands that this new school and its associated wastewater treatment plant have yet to be constructed, therefore there is no flow to report. Please note that if no flow was generated for a specific month in question, the reports must still be filed with the box checked indicating no flow for the month. This should be easy to correct through the eDMR system.

Please inform this office, in writing, within 30 days of the date of this letter as to the actions that have been or will be taken to correct the above noncompliance or explanations if you believe the noncompliance issues noted are in error. Your response to this letter should include the dates that the actions have been or will be completed.

Please be advised that past or present issues of noncompliance can continue as subjects of future enforcement actions by Ohio EPA.

If you have any questions or comments regarding this notification, please feel free to contact me at (330) 963-1175.

Respectively,

John M. Schmidt P.E., R.S.
Environmental Engineer
Division of Surface Water
