RE: SHERWOOD FOREST PARTY CENTER  
CITY OF VALLEY VIEW  
CUYAHOGA COUNTY  
NPDES PERMIT NO. 3PR00453\*AD

Mr. Steve Howe  
Ake Environmental & Construction Services, Inc.  
503 Broadway Avenue  
Bedford, OH 44146

Dear Mr. Howe:

This office has reviewed your response to our inspection letter for the referenced facility and has the following comments:

To consider the use of timers an operation plan must be developed and submitted to this office for review. The plan must outline the aeration cycle for each blower that is based upon the daily loadings to the WWTP. The aeration cycle must demonstrate the ability to maintain effluent quality; however, since December 2007 there has been no analytical data regarding the operational performance of the treatment system. In lieu of providing an acceptable operational plan the blowers must be operated continuously.

Your response notes that a discharge from the WWTP may occur on the weekends. The submittal of discharge monitoring reports (DMR) indicating "No Discharge" may be construed as falsifying information. If a discharge occurs flow must be reported and a sample of the effluent must be collected in accordance with the frequencies required by the NPDES permit. A procedure for determining flow and obtaining the required samples must be developed, implemented and submitted to this office for review.

Within ten days of the date of this letter provide this office with written notification as to the actions taken or proposed to correct the violations and/or deficiencies cited above.

If you should have any questions, please contact this office at (330) 963-1124.

Sincerely,

Sandra M. Cappotto  
Environmental Scientist  
Division of Surface Water

SMC/mt
