**Subject: Rescinding Violation – TCR**

Your public water system was issued a notice of violation of Rule 3745-81-21 of the Ohio Administrative Code (OAC) on 7/30/2012 for the monitoring period of 2Q2012. The sample (#14104) was collected on June 12, 2012, but the result was reported under a different public water system's ID by MASI Labs on June 14, 2012. The error was discovered on September 25, 2012, and your system has been credited with collecting its required 2Qtr total coliform sample on September 26, 2012.

The violation has been rescinded and the public notice sent with the notice of violation referenced above does not need to be issued at this time.

OAC 3745-81-31 and 3745-89-08 require results to be reported by the tenth day following the month the sample was collected. Further, OAC 3745-89-08 requires the laboratory to report all positive, all repeat sample results and all samples required by OAC 3745-81-42 (Ground Water Rule) no later than the end of the next business day after the result was obtained.

To lesson the occurrence of this type of error in the future, please ensure that all laboratory sample submission sheets are completed thoroughly and are legible. It is highly recommended that your sampler also keep a copy of the submission sheets for your water system's records.

If you have any questions, please contact this office at 614-728-3870.

Sincerely,

Bridgette Marchio
