Mr. John Marini
Marini Transmissions, Inc.
90 Maplewood Avenue
Wintersville, Ohio 43953

Dear Mr. Marini:

On October 2, 2012, I conducted a compliance evaluation inspection of Marini Transmissions, Inc. in Steubenville, Ohio to determine compliance with Ohio's hazardous waste laws and regulations as found under the Ohio Revised Code (ORC) and the Ohio Administrative Code (OAC). The inspection included an inspection of facility operations and a review of written documentation. This letter will explain the violation I found and what you need to do to correct the violation.

I found the following violation of Ohio's hazardous waste laws:

1. **Used oil storage requirements for generators, OAC rule 375-279-22(C):**
Containers and aboveground tanks used to store used oil at generator facilities shall be labeled or marked clearly.

During the inspection, the used oil tank was not labeled as required by this rule; however you labeled the tank during the inspection. No further action is required.

Attached you will find a copy of the checklists which were completed as a result of this inspection. Should you have any questions regarding the contents of this letter, feel free to contact me at 740.380.5256.

Sincerely,

Melody Stewart
District Representative
Division of Materials and Waste Management

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
