Mr. David Cogar
P.O. Box 964
Wooster, OH 44691

Dear Mr. Cogar:

On April 8, 2008, this office conducted a compliance evaluation inspection of the wastewater treatment system serving the above referenced facility. Present during the inspection were this writer and Kraig Bucklew of the Holmes County Health Department.

At the time of the inspection, the system was producing what appeared to be a satisfactory quality effluent. The aeration tank is being operated on a timer. Some white foam was present on the surface of the aeration tank. Solids were noted along the effluent weir in the clarifier. The surface sand filter beds were in very good condition and the contents of the chlorine contact tank were clear.

A review of your self-monitoring reports covering the period June 2007 through March 2008 revealed the following effluent violations:

Reporting Period	Station	Parameter	Limit Type	Limit	Reported Value	Violation Date
March 2008	001	Nitrogen, Ammonia (NH3)	30D Conc	3.0	9.29	3/1/2008
March 2008	001	Nitrogen, Ammonia (NH3)	7D Conc	4.5	9.29	3/1/2008

Should you have any questions or comments regarding this letter, please contact this office at (330) 963-1197.

Sincerely,

Dean W. Stoll, P.E.
Environmental Engineer
Division of Surface Water
