Mr. John Foreman
Guernsey Scrap Recycling
9658 Ohio Avenue
Cambridge, Ohio 43725-9313

Dear Mr. Foreman:

On July 10, 2012, I performed a compliance inspection of the Guernsey Scrap Recycling facility in Byesville, Ohio. The purpose of the inspection was to determine your facility's compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). This letter will explain the violations we found and what you need to do to correct the violations.

Based on the July inspection, a Notice of Violation letter was issued to you. On August 6, 2012, I received an email with photographs and a receipt for the disposal of used-oil contaminated soils. However, you had not yet finished removal of contaminated soils or clearly labeling the used oil drums. On August 16, 2012, a second NOV letter was issued. On October 10, 2012, I received your receipt for the disposal of the soils and on October 11, 2012, I visited the site. Based on the documentation provided and my observations, you have returned to compliance with the following hazardous waste rules:

- i) OAC Rule 3745-279-22(C), Used oil storage requirements for generators;
- ii) OAC Rule 3745-279-22(D), Used oil storage requirements for generators.

You have now abated all violations cited during the July 10, 2012 inspection.
