MUSKINGUM COUNTY
GENERAL FILE
(OLDE TOWNE CLEANERS)
DHWMS/SEDO
OHD018486936

Mr. David Frick
Olde Towne Cleaners
1953 Maple Ave.
Zanesville, Ohio 43701

Dear Mr. Frick:

On October 10, 2012, I performed a compliance inspection of the Olde Towne Cleaners to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Based on our observations and review of facility documentation during this inspection, we found the following violations of the hazardous waste regulations. Please provide the requested information within twenty-one days of the date of this letter:

(1) OAC rule 3745-52-11 Hazardous waste determination.

Any person who generates a waste, as defined in rule 3745-51-02 of the Administrative Code, must determine if that waste is a hazardous waste using the following method: (A) He should first determine if the waste is excluded from regulation under rule 3745-51-04 of the Administrative Code. (B) He must then determine if the waste is listed as a hazardous waste in rules. (C) For purposes of compliance with Chapter 3745-270 of the Administrative Code, or if the waste is not listed as a hazardous waste in rules 3745-51-30 to 3745-51-35 of the Administrative Code, the generator must then determine whether the waste is identified in rules 3745-51-20 to 3745-51-24 of the Administrative Code by either: (1) Testing the waste according to the methods set forth in rules 3745-51-20 to 3745-51-24 of the Administrative Code, or according to an equivalent method approved by the Region V Administrator of U.S. EPA pursuant to 40 CFR 260.21; or (2) Applying knowledge of the hazardous characteristic of the waste in light of the materials or the processes used.

During the inspection, we were informed that spent fluorescent lamps and spent filters from your petroleum-solvent dry-cleaning machine are thrown out into your solid waste dumpster. Unless you have documentation indicating that these lamps are not a characteristic waste, all such lamps must be collected and recycled as universal waste (see attached factsheet) or as hazardous waste. For the filters, they or the solvent in your machine should be sampled and analyzed by the Toxic Characteristic Leaching Procedure (TCLP) prior to disposing any more of them to determine if they are hazardous waste due to any toxic organic constituents. Alternatively, as we discussed

OLDE TOWNE CLEANERS
OCTOBER 16, 2012
PAGE 2

during the inspection, if these filters can be legitimately recycled for scrap metal, provide the name and address of the facility that will accept them for recycling. To abate this violation, please provide A) documentation indicating that the lamps and filters are not hazardous wastes; or B) the name and location of the facility(ies) that will recycle them (as universal waste and scrap metal, respectively); or C) the name and location of the facility(ies) that will manage and dispose of these materials as hazardous waste.

Other compliance concerns:

We also discussed the hazardous wastes stored on-site from the perchloroethylene machine (the solvent in the machine and the drums of the sludge/filters). To reduce your potential for environmental releases and unpermitted storage, you should have these wastes removed from the site and properly disposed of in a timely manner. Please provide documentation that these wastes have been properly disposed (ie. a copy of the hazardous waste manifest).

Olde Towne Cleaners needs to immediately take the necessary measures to return to compliance with Ohio's environmental laws. **Within 21 days** of the date of this letter, you are requested to provide documentation to this office including the steps taken to abate the violations cited above. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to rich.stewart@epa.ohio.gov.

Please be advised that violations cited above will continue until the violations have been properly abated. Failure to comply with Chapter 3734 of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, you are requested to submit written correspondence of the steps that will be taken by a date certain to attain compliance.

If you have any questions, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Materials and Waste Management

RS/mr

NOTICE:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all applicable regulations.

 Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

D001 D039 F002

COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.

Announced	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	Additional Facility Representatives:

Comments:

OTCs has not evaluated filters from petroleum-solvent machine or fluorescent bulbs.

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥1 Kg. of acutely hazardous waste in a calendar month.
 NOTE: To convert from gallons to pounds: Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.

Safety Equipment Used:

WASTE EVALUATION

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11] See note below.	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

GENERATOR CLASSIFICATION

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")] Unknown.	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	---

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)] Unknown, see note below.	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	---

TREATMENT OF HAZARDOUS WASTE

4.	Does the generator treat hazardous waste in a:	
	a. Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	b. Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	c. Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	d. Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5.	Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
	a. Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

Facility has not evaluated spent lamps and spent dry cleaning filters (petroleum solvent) that are disposed w/ solid waste.

PROCESS, WASTE, P2 SUMMARY SHEET

Facility Name: Olde Towne Cleaners Inc. Facility Type: LQG SQG CESQG TSD

Date of Inspection: 10/10/12

Waste Generated			On- or Off-Site Management		P2 Activities	
Process/Activity Generating Waste (e.g. plating bath, machining, baghouse, painting, general maintenance, etc)	Waste Description (e.g. sludge, solvent, ash, used oil, spent lamps, etc.) and EPA Waste Code, if applic.	QTY Generated per Month, Type of Accumulation (container, tank, etc) and location of waste accumulation area	Type of On-Site Treatment (recycle, wwt, etc)	Name, state, and type of activity occurring at the off-site facility.	Current P2 Activities	P2 Opportunities
1 dry cleaning (petroleum solvent)	Drained Filters (no evaluation)	Several per month	NA	Local solid waste landfill	None	Recycle?
2 lighting	Spent fluorescent bulbs (no evaluation)	Several per year	NA	Local solid waste landfill	None	Recycle
3 Dry cleaning (Perc solvent)	Fluid in unused machine, filters, condensate water (F002/D039)	no-generation since 2002 when discontinued use, waste in machine and nearby in drums	NA	NA, accumulated on-site	None

REMARKS - GENERAL INFORMATION

General Process Information:

This facility is a Laundromat and has one dry-to-dry dry-cleaning unit which uses Stoddard solvent, another machine that used perchloroethylene is still on-site and contains solvent.

Regulatory/Enforcement History (if applicable):

This facility was last inspected by DHWM in 2003, no violations were cited at that time.

Additional P2 remarks and information:

None.

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

Office of Compliance Assistance and Pollution Prevention - 1-800-329-7518 or p2mail@epa.state.oh.us or www.epa.state.oh.us/ocapp/ocapp.html
