Re: Richland County
PPG Industries
NPDES Permit

June 20, 2007

Richard Krehnovi, EHS Supervisor
PPG Industries
5066 S.R. 30
P.O. Box 269
Crestline, Ohio 44827

Dear Mr. Krehnovi:

On May 30, 2007, an inspection was made of the wastewater treatment facilities serving the PPG Industries glass manufacturing facility located at 5066 Lincoln Highway, Crestline, Richland County. You were present to answer questions regarding the treatment plant operations. The inspection was conducted as part of the renewal process for your NPDES permit # 2IE00004.

During the inspection we discussed the information submitted in the NPDES renewal application. We requested that you supply more information under Items II-B and V-A on the Form 2C. You indicated that this information would be submitted as soon as its available.

At the time of the inspection both the process wastewater treatment plant and the sanitary wastewater treatment plant appeared to be in good working order. No major concerns were noted. A review of your monthly operating reports submitted to our office for the months of October 2006 through April 2007 revealed two violations of the limits contained in your NPDES permit.

You will receive a draft copy of the renewal permit before it is issued final. Please look the draft over and contact our office with any comments that you might have.

If you have any questions please contact me at 419-373-3070.

Sincerely,

Walter Ariss
Environmental Specialist II
Division of Surface Water
