Rickenbacker International Airport
Building 597
Columbus, OH 43217

Dear Mr. Raleigh:

**Re: Air Tahoma (complaint investigation)
Non-notifier, Franklin County**

Dear Mr. Raleigh:

Thank you for your response letter (received June 19, 2008) to Ohio EPA's May 8, 2008 Notice of Violation letter. You provided evidence of Air Tahoma's corrections related to:

- 1.) **Hazardous Waste Evaluation, OAC rule 3745-52-11:** The waste materials in barrels, and the wastes from paint stripping operations, have been evaluated and containers were marked as to their contents. Alodine wastes will be evaluated and properly managed if and when they may be generated in the future, you indicated.
- 2.) **Used Oil Container and Tank Marking, OAC rule 3745-279-22(C):** The 55-gallon drums of used oil have now been properly marked.

The two violations discovered at Air Tahoma's facility at Rickenbacker Airport Building 597 during my April 10, 2008 inspection have both now been abated.

Other measures taken by the owner of the vintage aircraft parked outside the facility to control oil leakage threatening storm water, have also been noted and are adequate to address that concern.

The used solvent that you have accumulated on site may be a hazardous waste. At the time of my inspection visit, Air Tahoma was operating as a *Conditionally Exempt Small Quantity Generator* of hazardous waste. An optional EPA hazardous waste generator identification number may be obtained if needed to facilitate shipping your hazardous waste for proper recycling/disposal (a form and instructions are available online at <http://www.epa.state.oh.us/dhwm/notiform.html>).

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director

Ohio EPA is an Equal Opportunity Employer
