Mr. Charles Crites  
Crites Restoration  
13155 US RT 23 SB  
Ashville, OH 43113

**Re: Crites Restoration  
Pickaway County  
Non-notifier**

Dear Mr. Crites:

On June 22, 2011, I conducted a complaint investigation of your 13155 US Rt. 23 facility in Ashville, Ohio to determine its compliance with Ohio's hazardous waste laws and Used Oil Rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). The complainant stated that the facility was chronically dumping waste chemicals. Upon investigation there was no evidence of dumping, however, issues were found in the oil storage area next to the metal shop.

Crites Restoration is in violation of the following Ohio used oil rules. In order to correct these violations you must do the following and send me the required information **within 30 days of your receipt of this letter.**

**1. Used Oil Generator Standards (OAC 3745-279-22 (C))**

Containers and aboveground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil." At the time of the inspection the containers being used to collect oil from the metal shop were not labeled with the words "Used Oil."

Crites Restoration needs to label the used oil containers and submit a photo to me.

**2. Used Oil Generator Standards [OAC 3745-279-22(D)]**

The generator upon detection of a release of used oil must clean up and properly manage the used oil and other materials. The ground around the used oil drums was heavily stained with oil.

Photos submitted on 6-22-11 show that this area has been addressed. No further action is necessary.

Mr. Charles Crites  
Crites Restoration  
Page -2-

Enclosed you will find a copy of the checklists that we completed as a result of the inspection. Should you have any questions, please feel free to call me at (614-728-3884). You can find copies of the rules and other information on the division's web page at: <http://www.epa.ohio.gov/dmwm/>.

Sincerely,

Peter Maneff  
District Representative  
Division of Materials and Waste Management  
Central District Office

Enclosure

**Comments:**

**USED OIL INSPECTION CHECKLIST  
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

**NOTE:** 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at [https://www.comapps.ohio.gov/sfm/fire\\_apps/bust/bustr/PublicInquiry.asp](https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp) to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:

[https://www.comapps.ohio.gov/sfm/fire\\_apps/bust/bustr/SearchByCounty.asp](https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp).

**PROHIBITIONS**

1. Does the generator manage used oil in a surface impoundment or waste pile? Yes  No  N/A   
If yes:

a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes  No  N/A

**NOTE:** For example, used oil contaminated scrap metal stored in a pile.

2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes  No  N/A

3. Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes  No  N/A

**NOTE:** Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., If generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

**GENERATOR STANDARDS**

4. Does the generator mix hazardous waste with used oil? If so, Yes  No  N/A

a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes  No  N/A

**NOTE:** Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes  No  N/A

**NOTE:** If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6. Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes  No  N/A

7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes  No  N/A

8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] Yes  No  N/A

9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)] Yes  No  N/A

a. Stopped the release? Yes  No  N/A

b. Contained the release? Yes  No  N/A

c. Cleaned up and properly managed the used oil and other materials? Yes  No  N/A

d. Repaired or replaced the containers or tanks prior to returning them to service, if necessary? Yes  No  N/A

<b>ON-SITE BURNING IN SPACE HEATER</b>		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i>		
<b>GENERATOR TRANSPORTATION</b>		
11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
<i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i>		
<b>COLLECTION CENTERS AND AGGREGATION POINTS</b>		
13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i>

### **PROCESS DESCRIPTION SECTION**

Give a general process description ( include all processes done at the facility )

Crites Restoration is a small job shop making fiberglass body panels for cars and trucks. The production shops are located in out buildings and pole barns throughout the property. Each one of these locations is run on a contract basis with Crites Restoration providing the parts orders. Parts are formed in molds with a resin and hardening agent. Any waste generated from this process is fully catalyzed before disposed of with Local Waste. Crites also has a small metal fabrication shop onsite that periodically generates used oil, which is disposed of on an as needed basis.

\*\*\*\*\*

### **WASTE ACTIVITIES SUMMARY SECTION**

For each of the processes listed above that generate a waste give the following information: (1) name of process generating waste, (2) name or description of waste generated, (3) EPA waste codes, (4) quantity generated per month, (5) type of accumulation container used, (6) waste accumulation location in facility, (7) type of on-site treatment (if used), (8) name of off-site management facility (9) type of activity occurring at off-site management facility and (10) P2 activities

No hazardous waste is generated at this facility.

Used oil is generated by the metals shop and is stored in 55 gallon drums on the north side of the building. It is disposed of on and as needed basis, currently they had accumulated four 55 gallon drums.
