Re: Richland County  
Voisard Manufacturing Co. Plant 2  
Indirect Discharge Permit

April 8, 2010

Mr. Larry Sheppard  
Voisard Manufacturing Co.  
60 Scott Street  
Shiloh, Ohio 44878

Dear Mr. Sheppard,

On April 1, 2010, an inspection was made of the industrial wastewater treatment facilities serving the Voisard Manufacturing plant located at 2510 Taylortown Road, Shelby, Richland County. You were present during the inspection to provide a tour and answer any questions regarding the plant operations.

Your facility was issued Indirect Discharge Permit (IDP) #2DP00074 effective January 1, 2006. This permit was meant to cover the discharge of process wastewaters from your facility to the Village of Shiloh sanitary sewer system. Your company was going to construct a holding tank at your Shiloh facility that would receive wastewater generated from your facility located on Taylortown Road in Jackson Township. This system was never constructed and all industrial wastes generated at the Taylortown Road facility are hauled off site by K&D Industrial Services.

The IDP permit is set to expire on December 31, 2010. It will be necessary to submit a renewal application no later than June 31, 2010. If you do not wish to continue with this permit, since all wastes are hauled offsite and not to the Village of Shiloh, please send a letter to our office requesting termination of the permit.

During the inspection you mentioned the possibility of constructing an iron phosphating line at the facility. Any necessary industrial wastewater treatment upgrades or additions would need approval from our office prior to installation. Please feel free to contact me for further guidance on this process should this new line be installed.

If you have any questions please call me at 419-373-3070.

Sincerely,

Walter Ariss  
Environmental Specialist II  
Division of Surface Water
