Re: Notice of Violation
Van Wert County
Federal Mogul Corporation
Ohio EPA Permit No. 2IR00025
NPDES Permit No. OH0138169

February 11, 2011

Mr. Robert H. Wolke
Environmental, Health, and Safety Coordinator
Federal Mogul Corporation
150 Fisher Avenue
Van Wert, Ohio 45891

Dear Mr. Wolke:

We are in receipt of your self-monitoring report covering the months of October through December 2010, for the referenced facility. Our review indicates a violation of the conditions of your NPDES permit. The specific instance of noncompliance is attached on a separate sheet.

We have received a January 19, 2011, email response from Mr. Bruce Linn regarding the above mentioned violation. No further response is needed at this time.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets or U. S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614)644-3469.

Mr. Robert H. Wolke
