Re: Notice of Violation
Wood County
BP Oil Company - Millbury
Ohio EPA Permit No. 2IN00174
NPDES Permit No. OH0122037

January 30, 2009

Mr. Frank Marsek, Environmental Specialist
BP Oil Company
4850 East 49 th Street
Cuyahoga Heights, Ohio 44125

Dear Mr. Marsek:

A review of your discharge monitoring reports for the referenced facility covering the months of August 2007 through December 2008 indicates violations of the conditions of your National Pollutant Discharge Elimination System (NPDES) permit. The specific instances of noncompliance are as follows:

<u>OUTFALL</u>	<u>DATE</u>	<u>PARAMETER</u>	<u>REPORTED</u>	<u>LIMITATION</u>
August 2007				
001		Flow Rate	None	1/Month
001		pH	None	1/Month
December 2007				
001		Oil & Grease	None	1/Month
001		pH	None	1/Month
001		Phosphorus	None	1/Month

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in Part III - General Conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction).

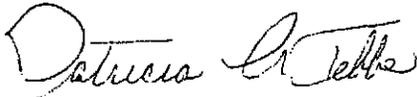

Mr. Frank Marsek

Page 2

For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. Information about Ohio EPA's Office of Compliance Assistance & Pollution Prevention can be found on Ohio EPA's Website at <http://www.epa.state.oh.us/ocapp/ocapp.html>.

Please inform this office in writing, within 10 days of receipt of this letter, as to the description of the actions taken or proposed to prevent further violations of this nature. Your response should include the dates, either actual or proposed, for completion of the actions.

If you have any questions, please feel free to contact this office.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
