Re: Notice of Violation
Wood County
North Baltimore WWTP
Ohio EPA Permit No. 2PB00033
NPDES Permit No. OH0020117

March 26, 2008

Mr. Andy Patterson
WWTP Superintendent
Village of North Baltimore
205 North Main Street
North Baltimore, Ohio 43872

Dear Mr. Patterson:

This letter is a correction of the February 21, 2008, violation letter. A review of your self-monitoring reports for the referenced facility covering the months of June 2007, through December 2007, indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are as follows:

<u>OUTFALL</u>	<u>DATE</u>	<u>PARAMETER</u>	<u>REPORTED</u>	<u>PERMIT LIMITATION</u>
001	August Week 4	Fecal Coliform	once per week	twice per week
001	Week 1	Fecal Coliform	AK	2000

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in Part III - General Conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Mr. Andy Patterson
