Re: Notice of Violation  
Wood County  
North Baltimore WWTP  
Ohio EPA Permit No. 2PB00033 \*  
NPDES Permit No. OH0020117

January 5, 2009

Mr. Andy Patterson  
WWTP Superintendent  
Village of North Baltimore  
205 North Main Street  
North Baltimore, Ohio 43872

Dear Mr. Patterson:

A review of the discharge monitoring reports covering the months of January, 2008 through November, 2008 indicates violations of the conditions of the NPDES permit for the North Baltimore WWTP. The specific instances of noncompliance are as follows:

<u>OUTFALL</u>	<u>DATE</u>	<u>PARAMETER</u>	<u>REPORTED</u>	<u>PERMIT LIMITATION</u>
September 2008 001	three days	pH	6.3 - 6.4 s.u.	6.5 s.u. minimum

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in Part III - General Conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. Information about Ohio EPA's Office of Compliance Assistance & Pollution Prevention can be found on Ohio EPA's Website at <http://www.epa.state.oh.us/ocapp/ocapp.html> or by calling (614) 644-3469.

Mr. Andy Patterson
