Re: Notice of Violation
Wood County
City of Perrysburg WWTP
Ohio EPA Permit No. 2PD00002*ID
NPDES Permit No. OH021008

January 8, 2009

Mr. Gary Haydel, Superintendent
City of Perrysburg WWTP
210 West Indiana Avenue
Perrysburg, Ohio 43551

Dear Mr. Haydel:

A review of your self-monitoring reports for the referenced facility covering the months of January 2008, through November 2008, indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance are as follows:

<u>OUTFALL</u>	<u>DATE</u>	<u>PARAMETER</u>	<u>REPORTED</u>	<u>PERMIT LIMITATION</u>
June 2008 001	Month	Nickel, Lead, Copper Chromium, Strontium Cadmium, Zinc Chromium Hex.	0 time	required 1/quarter
October 2008 001	Third week	Phosphorus	1.52 mg/l	1.5 mg/l

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in Part III - General Conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner.

Mr. Gary Haydel, Superintendent
