Re: Wyandot County
PSD Partners LLC
NPDES Permit

September 16, 2010

Mr. Andrew Bishop, VP Operation
PSD Partners LLC
7148 State Route 199
Upper Sandusky, Ohio 43351

Dear Mr. Bishop:

This will acknowledge Jason Ko's August 24, 2010, compliance inspection at your Carey facility. This facility is located at 5968 State Route 199, Carey, Ohio. This inspection was conducted as part of the facility's NPDES permit No. 2IN00223 (OH0138975).

At the time of the inspection, the pond was discharging and the effluent had a slight green tint. Scum was noted on the pond, but no oil sheen was observed. When a discharge occurs from the pond, it must be sampled in accordance with this NPDES permit.

We also determined that your Carey facility is not eligible for the "No Exposure" Certification. The industrial materials and activities in storage areas and loading/unloading areas are exposed to precipitation (for example, ports for transferring materials were noted on the outside of Warehouses #2 and #3, storage silos were exposed by Warehouse #2, a plastic storage tank located on the loading pad by Warehouse #3 and air pollution control equipment between the two grain unloading facilities). Consequently, we are not making any changes to the current stormwater language (Parts IV, V and VI) in your NPDES permit.

Our review of your discharge monitoring reports (1/2009 to 8/2010) for this facility indicated several effluent violations. Please refer to the enclosed summary of the violations. If you have any questions or comments, please call Jason Ko at (419) 373-3021.

Sincerely,

Elizabeth A. Wick, P.E.
Water Quality Engineer/Unit Supervisor
Division of Surface Water
