Mr. Anthony Dattilo  
Chemical Solvents, Inc.  
3751 Jennings Road  
Cleveland, Ohio 44109

Dear Mr. Dattilo:

Thank you for accompanying me during Ohio EPA's inspection of Chemical Solvents, Inc. (CSI) Dennison Avenue facility in Cleveland, Ohio. The inspection was October 11, 2012. I inspected Chemical Solvents to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

The Denison Avenue TSD facility is a recycler of various solvents and solvent blends. New solvents and solvent blends are also sold by the company. The facility is also a large quantity generator of hazardous waste.

In addition to the inspection for compliance with Ohio's hazardous waste rules, the facility was inspected for compliance with Ohio's used oil rules and universal hazardous waste rules. I found the following violations of Ohio's hazardous waste laws:

**1. OAC Rule 3745-52-34(A)(3), Use and Management of Containers:**

CSI is currently generating a wastewater from the LUWA thin film evaporator's vacuum pump. This once-through water comes in contact with the solvents being recovered by the LUWA and therefore has low levels of contamination from these solvents. Because the solvents recycled by the LUWA are spent solvents that are a listed hazardous waste, the wastewater, being a byproduct of this waste treatment, is also a listed hazardous waste and must be managed accordingly.

At the time of my inspection, CSI was accumulating over fifty 200-gallon totes which contained this wastewater. It was CSI's belief at the time that the wastewater was not a hazardous waste. In light of Ohio EPA's determination

Mr. Anthony Dattilo  
Chemical Solvents, Inc.

that the wastewater is a listed hazardous waste, these containers must be labeled with the words "hazardous waste." Because they were not labeled "hazardous waste," CSI is in violation of the above rule. To return to compliance with this regulation, submit a photograph showing the containers are now properly labeled.

**2. OAC Rule 3745-66-74, Use and Management of Containers, Inspection:**

The totes being accumulated which contain the listed hazardous waste vacuum pump wastewater were not being inspected. This is a violation of the above rule which requires weekly inspection of these containers, and the inspections recorded in a log or summary. In our recent telephone conversation of October 18, 2012, we discussed Ohio EPA's determination that this wastewater is a listed hazardous waste. You indicated that its generation is temporary and will be eliminated with the installation of a new oil-driven vacuum pump at LUWA 2 within a month or so. In light of the large volume being accumulated in an unpermitted accumulation area, Ohio EPA instructed CSI to inspect these containers daily rather than weekly. To return to compliance with this regulation, submit two weeks of completed daily accumulation area inspection logs for this area.

**General Comments**

1. The vacuum pump wastewater hazardous waste, when it reaches 90 days of accumulation, must either be properly managed off site or moved to one of CSI's permitted waste storage areas. This waste must not be accumulated longer than 90 days in these <90 day accumulation areas CSI has created to accumulate this waste.

CSI needs to immediately take the necessary measures to return to compliance with Ohio's environmental laws. Within 14 days of receipt of this letter, CSI is requested to provide documentation to this office including the steps taken to abate the violations cited above. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to [tom.roth@epa.ohio.gov](mailto:tom.roth@epa.ohio.gov).

Please be advised that violations cited above will continue until the violations have been properly abated. Failure to comply with Chapter 3734 of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, CSI is requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.
