**NOTICE OF VIOLATION – ACTION REQUIRED**

Mr. Bruce Meyer, President  
Board of Public Affairs  
Florida Village  
206 East High Street  
Napoleon, Ohio 43545

Henry County  
  
Florida Village  
Community PWS  
PWS ID: OH3501203

Dear Mr. Meyer:

The Public Water System serving Florida Village is in violation of the Ohio Administrative Code (OAC) for: OAC Rule 3745-91-02 (A) states "No person shall begin construction or installation of a public water system, or make a substantial change in a public water system, until plans therefor have been approved by the director of environmental protection unless exempted..."

The installation of the solar bee in the elevated tower without detail plans having been approved by the Director constitutes a continuous violation of Section 6109.07 of the Revised Code and Chapter 3745-91-02 of the Ohio Administrative Code. Plans must be submitted in order to correct this violation.

Submit plans within 30 days of this letter or provide an alternate date for the plan submittal.

If you have any questions, please contact me at (419) 373-3101.

Sincerely,

Chris Riddle  
Division of Drinking and Ground Waters

**INSTRUCTIONS FOR THE SUBMITTAL OF DETAIL PLANS FOR PUBLIC WATER SYSTEMS**

As stated by section 6109.07 of the Ohio Revised Code and section 3745-91-02 of the Ohio Administrative Code, *"No person shall begin construction or installation of a public water system, or make a substantial change in a public water system, until plans therefor have been approved by the director of environmental protection."*

A public water system is defined as a system that has either 15 service connections or serves at least 25 individuals sixty days out of the year.

A person applying for plan review of a public water supply system pursuant to section 6109.07 of the Ohio Revised Code shall pay a fee of \$150 plus 0.35% of the estimated project cost; however, the total fee shall not exceed \$20,000. The fee shall be paid at the time the application is submitted. The fee shall be made payable to: Treasurer, State of Ohio.

If the project includes the drilling, boring, digging, deepening, altering and/or logging of a well for the purpose of extracting potable water as part of a public water system required to be licensed under Chapter 6109 of the Revised Code, include a \$20.00 well log filing fee per well log in the review fee calculation. Ohio EPA is required to collect this fee for ODNR.

-----  
 ALL DETAIL PLAN SUBMITTALS ARE TO CONTAIN THE FOLLOWING:

1. Water Supply Data Sheet (1 copy)
2. Review Fee
3. Detail Plans on engineering paper (usually 24"x36") (3 sets)
4. Technical specifications if applicable (1 copy)
5. Appropriate endorsements (Owner, P.E., plan preparer) as applicable

In order to provide assistance with the preparation of detail plans, guidance sheets are available at your District. They describe how to prepare detail plans for groundwater systems including wells and treatment, and outline the minimum information that should be presented with sets of plans for waterline extensions, booster stations and storage tanks. These guidance sheets are available upon request. In addition, if the proposed improvements are for a new community or non-transient, non-community public water system, or if the proposed improvements are being funded by the Ohio EPA Water Supply Revolving Loan Account, a Capability Assurance Plan must be submitted for approval with the detail plans. If you have any questions call the District Office.
