Director's Final Findings  
and Orders

Respondent

I certify this to be a true and accurate copy of the  
official documents as filed in the records of the Ohio  
Environmental Protection Agency.

PREAMBLE

By: *[Signature]* Date: 4-1-08

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Republic Services of Ohio II, LLC, dba Countywide Recycling and Disposal Facility ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") Sections 3734.13.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and its successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility (as hereinafter defined) shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

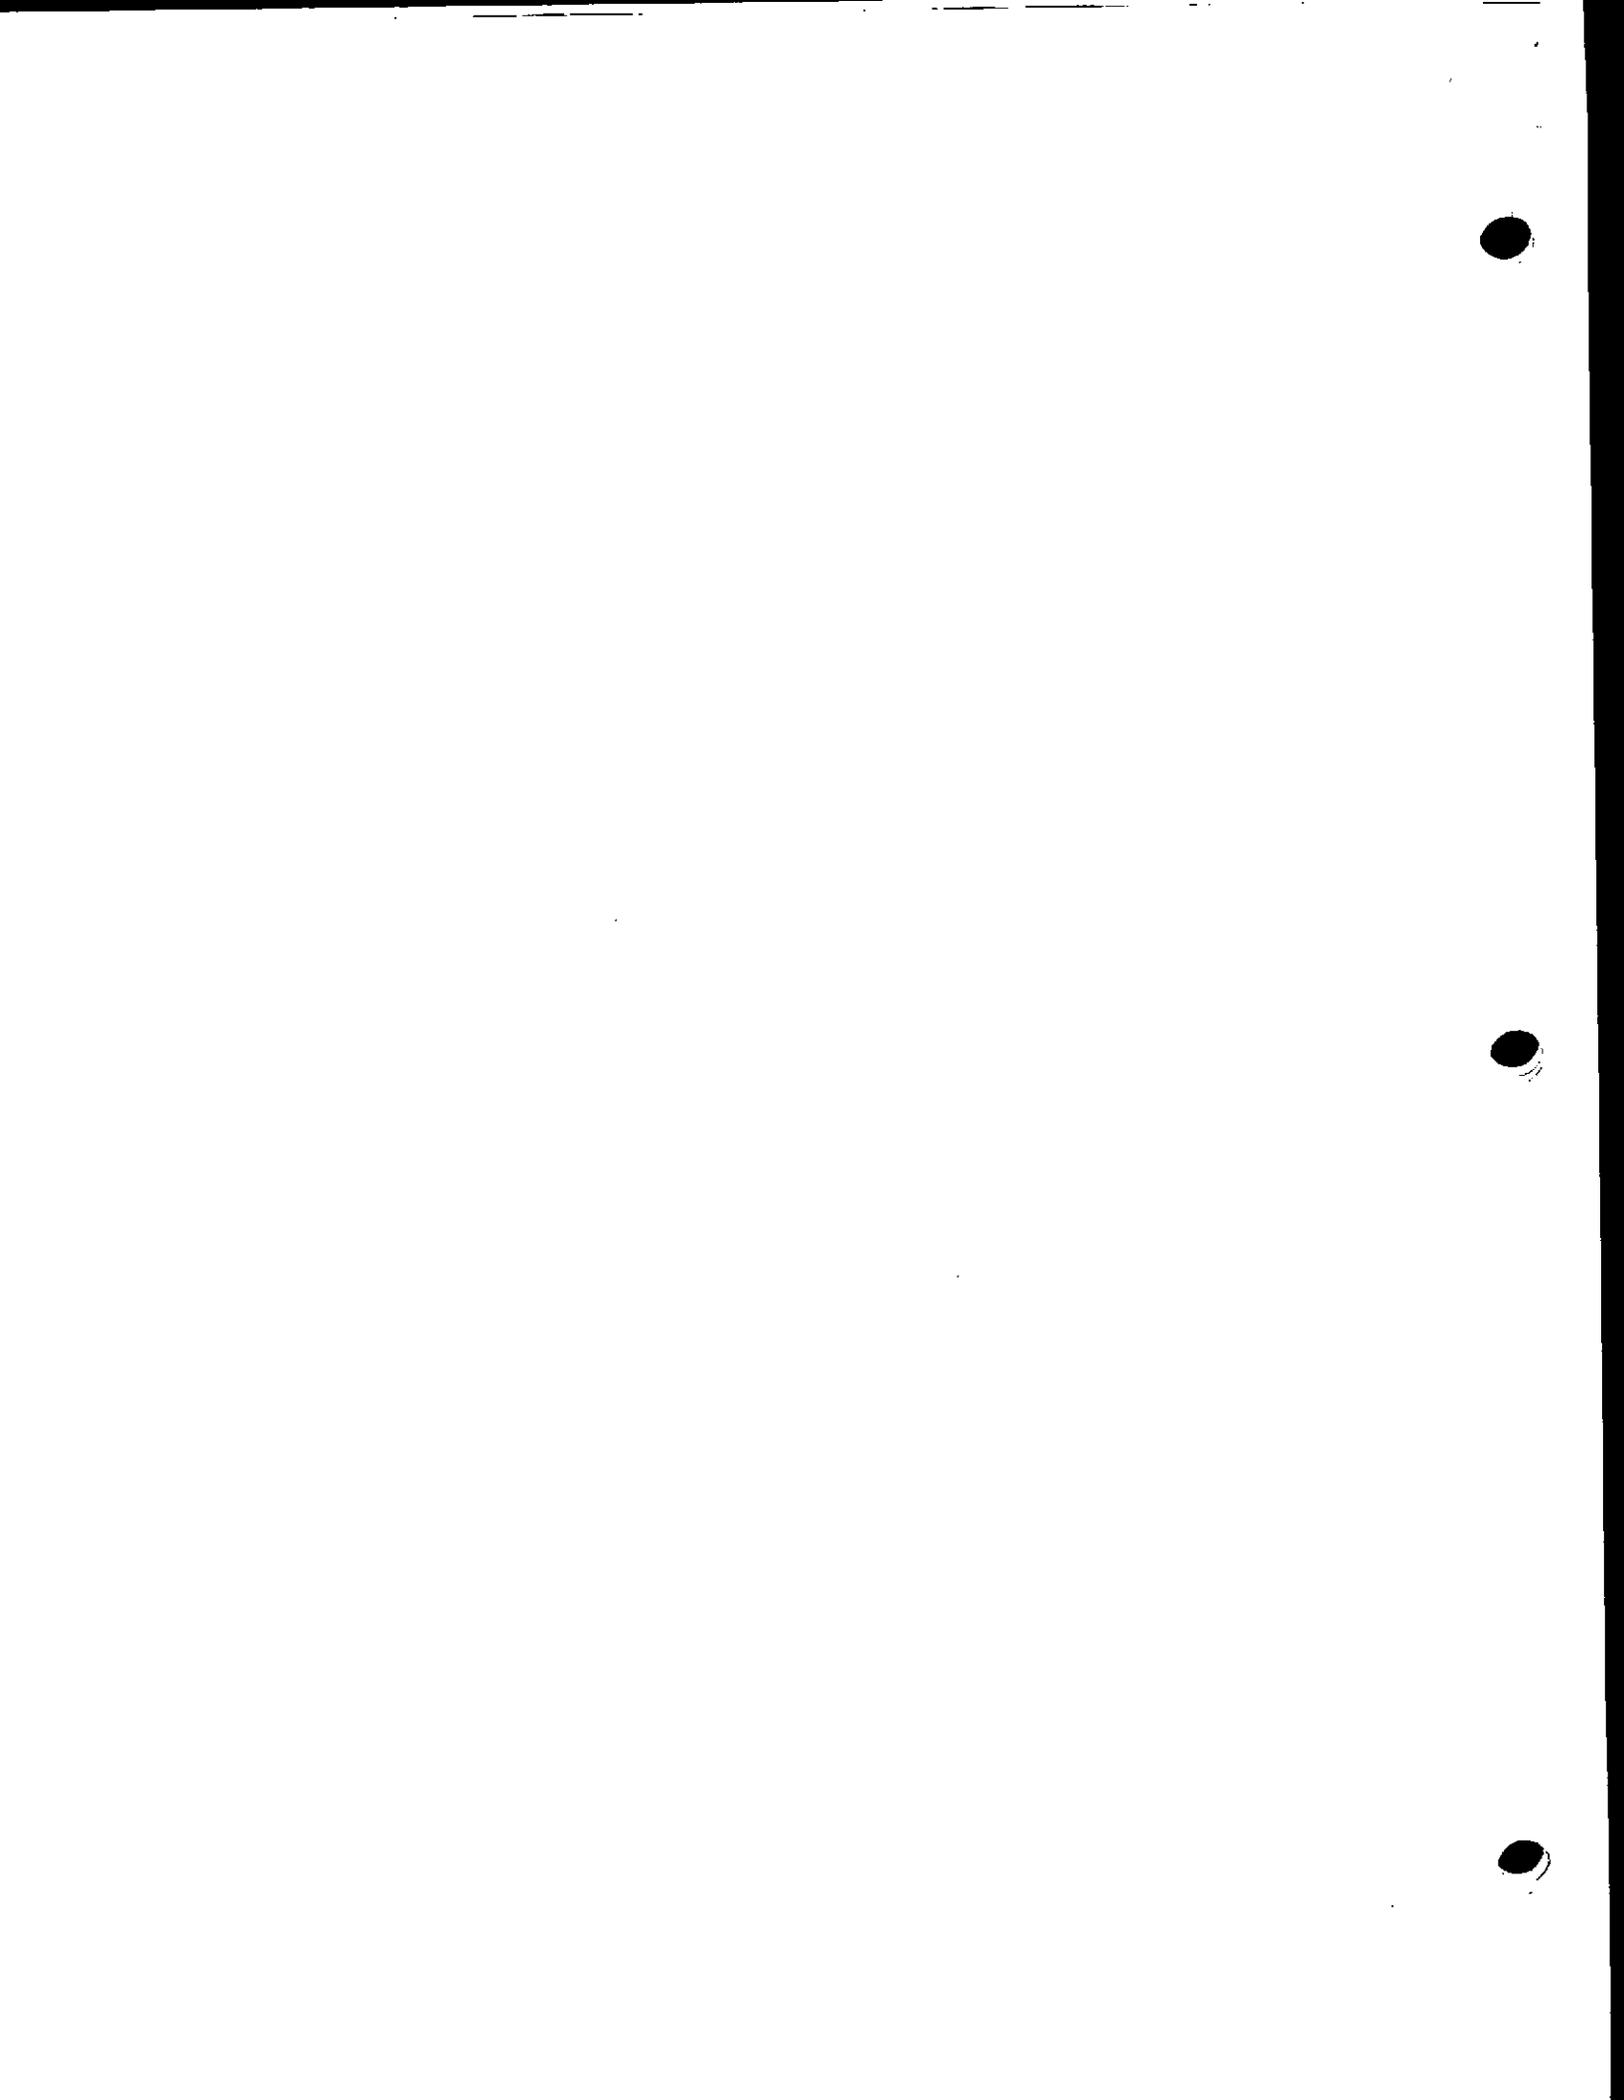

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734 and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

**General Findings**

1. Countywide Recycling and Disposal Facility ("Facility") is located at 3619 Gracemont Street SE, East Sparta, Stark County, Ohio.

2. Respondent is the "owner" and the "operator" of the Facility as those terms are defined in Ohio Administrative Code ("OAC") Rule 3745-27-01(O)(7) and (O)(5), respectively, and is also the license holder for the Facility.
3. The Facility is a "sanitary landfill facility" as that term is defined under OAC Rule 3745-27-01(S)(4) and is authorized to accept "solid waste" as that term is defined under ORC Section 3734.01(E) and OAC Rule 3745-27-01(S)(24).
4. Respondent is a "person" as that term is defined in ORC Section 3734.01(G) and in OAC Rule 3745-27-01(P)(3).
5. The Facility is a "municipal solid waste landfill" or "MSW landfill" as defined in 40 CFR 60.751. The Facility is an "air contaminant source" as defined in OAC Rules 3745-31-01(I) and 3745-15-01(C) and (W). The Facility is subject to the requirements of permit to install modification #15-01391 issued by the Director to Respondent on May 10, 2005, and a Title V operating permit issued by the Director to Respondent on August 30, 2004. Respondent is the permittee, under, and permit holder of, those permits.
6. The Director issued Director's Final Findings and Orders to Respondent on March 28, 2007 (March 2007 Orders) to address conditions at the Facility. Section XII. MODIFICATIONS of the March 2007 Orders provided that the March 2007 Orders could be modified by agreement of the parties, and that such modifications would need to be in writing and would become effective on the date entered into the Director's journal.
7. Pursuant to Section XII. of the March 2007 Orders, the Director issued Director's Final Findings and Orders (September 2007 Modification) on September 25, 2007 that modified certain provisions of Order 2B of the March 2007 Orders. Specifically, the September 2007 Modification required the submission of certain permit modification documents by not later than April 1, 2008.
8. On March 11, 2008, Respondent sent a letter to Ohio EPA requesting that Order 2B of the March 2007 Orders, as extended to April 1, 2008 per the September 2007 Modification, be further extended to 180 days after completion of certain activities related to selection of a final remedy.
9. In light of the fact that work currently being planned for the Facility may affect the documents to be submitted under Order 2B of the March 2007 Orders, the parties have agreed to modify Order 2B of the March 2007 Orders as set forth in these Orders.

## V. ORDERS

These Director's Final Findings and Orders modify the March 2007 Orders and the September 2007 Modification in the following manner:

1. Order 2B of the March 2007 Orders and the September 2007 Modification shall be replaced with the following:
  - B. Submit, by not later than July 1, 2008, updated engineering detail plans, specifications and information to the Director for review and approval to modify permit to install # 02-14796 to:
    1. Prohibit leachate recirculation in and vertically above cell 7 of the Facility;
    2. Require the closure of cells 1, 2, 3, 4A, 4B, 5A, 5B, 5C, 5D, and 6A following the Director's written concurrence with Respondent's certifications required by Section V, Paragraph 10, of these Orders; and
    3. Revise the Facility's permit documents, consistent with remedial actions selected by the Director under Order 9 of these Orders, and consistent with the conceptual plan drawings approved under Section V, Paragraph 2.A. of these Orders, to account for the required closure of cells 1, 2, 3, 4A, 4B, 5A, 5B, 5C, 5D, and 6A and the resultant loss of airspace at the Facility. The revised permit documents shall result in a net loss of airspace of at least 15,500,000 cubic yards at the Facility, and shall not propose a lateral or vertical expansion of the limits of waste placement which were established in permit to install # 02-14796 at the Facility.

Respondent's updated engineering detail plans, specifications and other information shall be in conformance with the requirements of OAC Rules 3745-27-02, 06, 07, 15, 16, and 17 and any other applicable requirements. To the extent that Respondent maintains that some of the requirements of these rules can be satisfied by existing permit documents, and that such permit documents do not need to be updated, Respondent shall inform Ohio EPA in writing of such rule requirements and permit documents not later than 60 days after the effective date of these Orders.

Ohio EPA may review the updated engineering detail plans, specifications and other information submitted by Respondent to modify its permit in accordance with the procedures set forth in Section VI, Review of Submittals.
