DRINKING WATER NOTICE

Source Monitoring requirements were not met for Cincinnati Test Systems 2

We are required to monitor our source (raw) water for fecal indicators following a positive sample for total coliform in our distribution system. On 9/27/2012 12:00:00 AM, we "did not monitor or test" or "did not complete all monitoring or testing" for total coliform bacteria, and therefore cannot be sure of the quality of your drinking water during that time.

What Should I Do?

There is nothing you need to do at this time. You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What is being done?

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters and post this public notice to inform our customers. Cincinnati Test Systems 2 will take steps to ensure that adequate monitoring will be performed in the future.
