**Re: Gallia County
Fellowship of Faith
Storm Water Construction Activity
Notice of Violation
0GC00633*AG**

Mr. Greg Scott
Fellowship of Faith
1134 Jackson Pike
Gallipolis, Ohio 45631

Dear Mr. Scott:

On August 17, 2009, I visited your site on State Route 554 near Bidwell. The purpose of the inspection was to determine the compliance status of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The following areas need to be addressed:

Permit Coverage:

1. Part III.G.2.d.iv. of the permit states that sediment control practices must minimize the amount of sediment entering an active storm drain system, unless the system drains to a sediment settling pond. **Please apply inlet protection to the inlet near the building.**

Sediment and erosion controls for your site must meet the guidelines and design criteria set forth in the above mentioned *Rainwater and Land Development* manual. A copy of this manual may be obtained by contacting the Ohio Department of Natural Resources, Division of Soil and Water Conservation, at (614) 265-6610.

Within fourteen (14) days of receipt of this letter, please submit to me at this office a written notification as to actions taken or proposed to eliminate violations of the permit. Your response should include the dates, either actual or proposed, for the completion of the actions. If you have any questions, please contact Aaron Wolfe at (740) 380-5277.

Please be advised that failure to comply with the terms and conditions of your NPDES permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

Sincerely,

Dustin Tschudy
Storm Water Section
Division of Surface Water

Re: Gallia County
South Gallia High School
Storm Water Construction Activity
Notice of Violation
0GC00674*AG

Ms. Charla C. Evans
Gallia County Local Schools
230 Shawnee Lane
Gallipolis, Ohio 43631

Dear Ms. Evans:

On August 17, 2009, I visited your site on Mercerville Road in Mercerville. The purpose of the inspection was to determine the compliance status of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The following areas need to be addressed:

Permit Coverage:

1. Part III.G.2.b.i. (Table 2) of the permit requires that any area that will lie dormant for more than 21 days, but less than a year be stabilized within 7 days of the most recent disturbance. **Please seed and mulch areas of the back field that will remain dormant and any other bare areas on the site that do not meet this requirement.**
2. Part III.G.2.b.ii. of the permit states that operators shall stabilize channels and outfalls to prevent erosive flows. Techniques may include seeding, mulching, erosion control matting, sodding, rip rap, or rock check dams. **There is erosive flow along both sides of the entrance. Stabilize these areas immediately.**
3. In accordance with Part III.G.2.d.i. and Part III.G.2.h. of the permit, all sediment control structures shall be functional throughout the course of earth disturbing activities. Sediment controls should be in place prior to the onset of construction activities and must remain in place until the entire up slope area is stabilized. **Silt fence needs to be installed along the front of the building.**

Sediment and erosion controls for your site must meet the guidelines and design criteria set forth in the above mentioned *Rainwater and Land Development* manual. A copy of this manual may be obtained by contacting the Ohio Department of Natural Resources, Division of Soil and Water Conservation, at (614) 265-6610.

Within fourteen (14) days of receipt of this letter, please submit to me at this office a written notification as to actions taken or proposed to eliminate violations of the permit. Your response should include the dates, either actual or proposed, for the completion of the actions. If you have any questions, please contact Aaron Wolfe at (740) 380-5277.

Please be advised that failure to comply with the terms and conditions of your NPDES permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

Sincerely,

Dustin Tschudy
