RE: Capital Flea Market Return To Compliance

Dear Mr. Dlesk:

On November 28, 2012, the Ohio Environmental Protection Agency received copies of receipts for the disposal of solid waste and construction and demolition debris (C&DD), located at your Lansing Facility located at 1700 Coupling Road. The receipts indicated that approximately 150 tons of solid waste and C&DD was removed from the facility.

The building is empty and it appears that the flea market has been moved closer to the road, near the driveway. Currently, Sand bags are being stored on site.

As a result of the inspection, Ohio EPA determined that Dlesk Realty & Investments abated the following violations:

Citation	Requirement	Action taken
ORC Section 3734.03	Open dumping prohibited	Facility provided disposal receipts on November 28, 2012. A final inspection was conducted on November 21, 2012.
OAC Rule 3745-27-05(C)	Open dumping prohibited	Same as above
OAC 3745-400-04(B)	Illegal disposal of C&DD	Same as above

Nothing in this letter shall be construed to authorize any waiver from the requirements of any applicable state or federal laws or regulations. This letter shall not be interpreted to release the owner or operator, or others, from responsibility under Chapters 3704, 3714, 3734, or
