Subject: Lead and Copper Monitoring - Failure to Return to Compliance

Your public water system continues to be in violation of Rule 3745-81-80 through 3745-81-89 of the Ohio Administrative Code for failure to comply with the lead and copper monitoring requirements:

Initial Monitoring Period:	June 1 - September 30, 2005
Return to Compliance Monitoring Period:	June 1- September 30, 2007
Required Sampling:	5 samples for each lead and copper
Sample Results Submitted:	None

Actions required as a result of the above violation	
Step 1	Collect and analyze the required number of lead and copper tap samples during June - September 30, 2008. Based upon the reported population, you are required to collect a minimum of 5 lead and copper samples. Report results on the enclosed forms 5105, 5106 and 5107 by October 10, 2008.
Step 2*	<p>Within 30 days issue public notice of the violation in accordance with rule 3745-81-32 of the Ohio Administrative Code by the following methods:</p> <ol style="list-style-type: none"> 1. mail or other direct delivery to each customer receiving a bill and to other service connections; and 2. if necessary, the system must also use any other method reasonably calculated to reach all persons. <p>Note: Systems opting to include the required public notice in the next water bill have up to 90 days. The language in italics on the attached public notice is mandatory and must be included as written.</p>

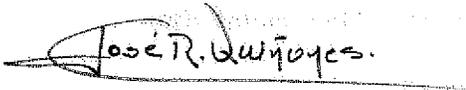

* Note: Step 2 is required to be followed one time for failure to monitor in 2006. If Step 2 was not performed previously, public notice is required to be issued within 30 days.
