We have reviewed your Total Chlorine Residual Quarterly Operating Report covering the time period of July, August and September 2009 and have noted the following deficiencies:

- On the Total Chlorine Report 5114, report the total chlorine sample results taken on the day and at the same location you collect your routine total coliform samples only.

Please take prompt action to correct these reporting deficiencies in your next operational reports.

If you have any questions, please contact me at (740) 380-5275.

Sincerely,

Randy R. Smith
Environmental Specialist
Division of Drinking and Ground Waters
