Re: 2013 Conditioned License to Operate a Public Water System

Dear Mr. Anthony:

Enclosed is the 2013 license to operate (LTO) a public water system (PWS) for Valleyview Estates Mobile Home Park (PWS ID# OH3700312). In accordance with Ohio Revised Code (ORC) § 6109.21 and Ohio Administrative Code (OAC) Rule 3745-84-06, the LTO is hereby issued with conditions due to violations of drinking water regulations at the PWS. In accordance with OAC Rule 3745-84-04, PWSs are required to display the yellow, conditioned license where it is clearly visible to the residents and general public and to notify the residents of the conditioned status of the license in the consumer confidence report pursuant to OAC Chapter 3745-96.

The LTO is conditioned through January 30, 2014, with the following actions:

1. Immediately submit an updated written contingency plan, in accordance with OAC Chapter 3745-85-01.
2. Immediately respond in writing to the March 30, 2012 sanitary survey letter, indicating how and on what schedule significant deficiencies noted in the survey will be addressed, in accordance with OAC Rule 3745-81-60(D).
3. Immediately begin submitting monthly operating reports for the water plant and distribution system, in accordance with OAC Rule 3745-83-01(I)(2).
4. Within sixty (60) days of the effective date of this letter, a public notification shall be issued and copies of the required public notice and verification form (attached) shall be submitted to Ohio EPA, DDAGW-CO, P.O. Box 1049, Columbus, Ohio 43216-1049, Attn: Christel Sherron, in accordance with OAC Rule 3745-81-32, for failure to collect triennial lead and copper monitoring samples during the June 1 to September 30, 2011 monitoring period.

5. Comply with all current and subsequent monitoring schedules issued by the Director, in accordance with OAC Chapter 3745-81.
6. Comply with total coliform bacteria monitoring requirements, including both routine and repeat samples, in accordance with OAC Rule 3745-81-21 and OAC Rule 3745-81-42.
7. Comply with the annual consumer confidence report (CCR) requirements, including data collected during or prior to the previous calendar year, to each customer by July first annually; and provide a copy of the CCR distributed and a distribution certification to the Director, in accordance with OAC Chapter 3745-96.
8. Comply with total chlorine residual monitoring requirements, in accordance with OAC Rules 3745-81-70 and 3745-83-01(F)(2).
9. Report to the Ohio EPA Southeast District Office, as soon as possible, but within twenty-four hours, of the discovery of any serious plant or distribution system breakdown or condition causing or likely to cause, in accordance with OAC Rule 3745-83-01(H)(4):
  - a. Any discharge of water not in accordance with ORC § 6109 or the rules adopted thereunder;
  - b. Any major interruption in service or disinfection; or,
  - c. Any hazard for employees, consumers, the public or the environment.
10. Comply with all LTO renewal requirements, in accordance with OAC Chapter 3745-84.

If the requirements of this conditioned LTO are fulfilled, the PWS may be eligible for a green, unconditioned license in the next renewal period. Should the PWS fail to comply with these conditions, the LTO may be suspended or revoked. A PWS with a suspended LTO may only operate as authorized by the Director, and a PWS with a revoked LTO is prohibited from producing water for human consumption. Human consumption is defined in OAC Rule 3745-81-01 to include, but is not limited to, drinking, food preparation, dishwashing, and hand washing. Additionally, owners and/or operators who fail to comply with Ohio's safe drinking water laws are subject to civil penalties of up to \$25,000.00 per day per violation under ORC § 6109.33. Operating with a suspended or revoked LTO may jeopardize other licenses, such as those for mobile home park operations.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to ORC § 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be

served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
77 South High Street, 17<sup>th</sup> Floor  
Columbus, OH 43215

If you have any questions regarding this action, please contact Christel Sherron at (614) 644-2752.

Sincerely,

Scott J. Nally, Director  
Ohio Environmental Protection Agency
