In addition, the September 2007 Discharge Monthly Report (DMR) did not include results of samples taken for that month for Acute Toxicity, Ceriodaphnia dubia and Acute Toxicity, Pimephales promelas. Please re-submit the September DMR with this information.

Please be advised that failure to comply with the effluent limitations or to satisfy the monitoring or reporting requirements of your NPDES permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

Although you have provided a telephone report regarding the above violations, please inform this office, **in writing**, within ten days of receipt of this notification as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

If there are any questions, please contact me at (740) 380-5284.

Sincerely,
