Dear Facility Manager:

Part III of NPDES Permit 0PR00142\*AD for the above referenced facility requires the submittal of effluent discharge monitoring reports (DMR) every month. Our records show that we have not received reports for the following reporting period: April through June 2008.

Please be advised that failure to satisfy the reporting requirements of your NPDES Permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

In addition, please provide a status of the installation of the disinfection system that is being installed at your facility in order to comply with the final total chlorine residual limit of the permit.

Please submit the above referenced report(s) within 10 days of the date of this letter, if you have not already done so.

If there are any questions, please contact me at (740) 380-5284.

Sincerely,

Ms. Abbot Stevenson  
Environmental Engineer
